New Emergency Dispensing Legislation

During the 2013 legislative session, the Missouri General Assembly enacted §138.200, which authorizes a Missouri pharmacist to dispense an emergency supply of medication if the pharmacist is unable to obtain refill authorization from the prescriber.

Under the new legislation, pharmacists may dispense an emergency supply if:

- In the pharmacist's professional judgment, interruption of therapy might reasonably produce undesirable consequences;
- The pharmacy previously dispensed or refilled a prescription from the applicable prescriber for the same patient and medication;
- The pharmacist informs the patient or the patient's agent at the time of dispensing that prescriber authorization is required for future refills. Notification can be made verbally, electronically, or in writing; and
- The emergency dispensing is documented in the patient's prescription record.

The amount dispensed must be limited to the amount needed for the emergency period as determined by the pharmacist within his or her professional judgment, provided the amount dispensed **shall not exceed a seven-day supply**. If the prescriber is deceased, incapacitated, or unable to provide medical services, **up to a 30-day supply** may be dispensed.

The Missouri Board of Pharmacy recognizes that certain medications are dispensed in manufacturer packaging that exceed a seven-day supply. However, §138.200.2 provides "the amount dispensed shall . . . not exceed a seven day supply" if the prescriber is not deceased or otherwise incapacitated. The Board recommends that pharmacists use their professional judgment as needed for the emergency period and to consult with your legal counsel in such circumstances.

The new legislation became effective on August 28, 2013, and is available online at www.house.mo.gov/billstracking/Article17/bills.asp?only=MM01127.PDF. Licensees should read the statute in its entirety to ensure compliance.

They Have Moved!
