

YZ490 1984

Our rising-rate Monocross suspension has been improved again for '84. The swing arm is lighter and stronger. And we redesigned the lever ratio to make the spring rate and shock damping even more progressive.

Larger air cleaner gives the engine more power. And it's located on the side panel where it's easy to get at.

The Monoshock's damping adjuster has been moved to the remote reservoir so you can get to it quickly and easily.

Softer, more comfortable grips.

New porting specs improve overall power and torque.

The front forks are lighter, stronger this year and have compression damping adjusters so you can tune them for a multitude of track conditions.

New double-leading shoe front brake for the ideal combination of stopping power and light weight.

While a bigger 40mm carburetor improves the air-fuel mixture, a new 8-rod intake smooths its path to the engine. The redesigned CDI ignition is more durable and increases performance throughout the rpm range.

A stronger chain moving through a new chain guide increases reliability.

The exhaust pipe has been redesigned for more power and durability.

Z-spokes stay tighter than conventional spokes and weigh considerably less.
