Spilker,2023 **Expressivist Religious Zionism** Shlomo Fischer,2024-12-24 This book presents a new approach to the study of Religious Zionism In counter

distinction to the prevalent fundamentalist approach it argues that mainstream of Religious Zionism is a romantic religious nationalist movement in which the modern idea of self expression and related notions such as the free and authentic self and the overcoming of alienation forms its philosophical core By showing how such notions are combined with conservative and un modern cultural and political goals such as the restoration of a messianic kingdom it provides a profoundly complex and nuanced account both of pervasiveness of modern notions in contemporary culture and of the modern aspects of conservative and even extremist religious and nationalist groups By uncovering the process of the sacralization of the nation the state the national destiny and territory it contributes to our understanding of religious nationalism globally It also shows how the violence and extremism perpetrated by Religious Zionism elements is not some atavistic holdover from the past but is in fact rooted in the drive to self actualization and constitutes modernist violence This book will appeal to researchers and students of Jewish studies Israel and the Middle East Its intended audience also includes researchers on religious nationalism and contemporary religious and national movements
