Many safeguarding practitioners do not specialise in work with sex offenders but do find themselves working with them and need professional understanding and expertise to do so. This book provides professionals with a clear understanding of current theory and good practice. Designed as a complement to specialist assessment processes, it covers relevant theory ranging from current research on neurobiology and sexual deviance through to types of offending and offender profiles. It also lays out key areas of good practice from carrying out assessments, managing risk, and making complex decisions through to current legislation and how best to safeguard families. Taking you from the fundamental principles right through to responding to complex cases, this book is essential reading for all safeguarding professionals.

Manual of Neonatal Respiratory Care Steven M. Donn, Sunil K. Sinha, 2016-12-19. The latest edition of this popular book covers the how-to of respiratory care of newborns. Chapters from the previous edition have been updated to reflect advances in both equipment and practice, while newer chapters reflect the evolving worldwide approaches to neonatal respiratory failure, such as sustained inflation, optimization of lung volume, and the use of volumetric capnography, aerosol therapy, and management of chylothorax. New additions to the book also include chapters on assessment of large data bases, implementation of quality improvement programs in neonatal respiratory care, chronic ventilation of the baby with non-respiratory failure. The text also features case studies for self-review and is illustrated with high-quality radiographic images, figures, tables, and algorithms. Written and edited by international experts, the *Manual of Neonatal Respiratory Care* Fourth Edition is a thorough update and remains a convenient source of practical information on respiratory physiology, exam techniques, tips for performing procedures, radiography, ventilation, pain management, transport, and discharge planning.
