Nsc Past Exam Papers 201

Stephen J. Hartnett

Nsc Past Exam Papers 201:

The National Security : Its Theory and Practice, 1945-1960 Norman A. Graebner, 1986-05-29 Based on a conference at West Point this volume explores the national security policies developed by the Truman and Eisenhower administrations in response to the threat of Soviet expansionism More pointed and analytic than any other book on the subject it shows clearly that the makers of Cold War policy were motivated by fear It also examines the nature of U S security policy and points to the growing gap between the ends and the means of global security policy to protect Western democracy from the Red Menace by using a nuclear strategy with limited applications The contributors including David Alan Rosenberg Lloyd C Gardner Martin J Sherwin and Gary W Reichard explore such issues as how dependence on nuclear weapons became the central doctrine of American foreign policy the bureaucratic and political context of U S security Eisenhower s ongoing disputes with Army and Navy leaders over the security issue the objections of Democrats to the evolving security strategy and the limits of Cold War policy particularly how the viewing of the Third World through a U S Soviet prism impeded the U S from developing a truly global security policy Written in an accessible journalistic style The National Security makes available a wealth of information on the Cold War period and offers insights into fears that dominate political thinking to this day

The Vietnam War James H. Willbanks, 2017-11-22 The Vietnam War remains one of the most contentious events in American history This book is a collection of essays that seeks to examine the current state of scholarship on the war and its aftermath It is divided into five sections which address American presidents and the war the conduct of the war in the field the impact of the Tet Offensive the meaning of the war and its lasting legacies The purpose of the collection is to present the most recent contributions to the continuing academic and scholarly dialogue about one of the most momentous historical events of the twentieth century

Vietnam, January 1969-July 1970 United States. Department of State, 2006 State Department Publication 11152 General Editor Edward C Keefer David C Geyer et al editors Documents United States national security policy during the Johnson administration Focuses on the issues that primarily engaged high level United States policymakers Features eleven bilateral and two regional compilations demonstrating the breadth of the United States Government s relations with the countries of South and Central America

Executive Privilege, Secrecy in Government, Freedom of Information United States. Congress. Senate. Committee on Government Operations. Subcommittee on

Intergovernmental Relations, 1973

Between Empire and Alliance Marc Trachtenberg, 2003-02-28 The steadfast alliance between America and Europe represents one of the most important and complex political relationships in the modern world But with the end of the Cold War America and Europe seem to be drifting apart In Between Empire and Alliance scholars from both sides of the Atlantic examine the most intense phase of the Cold War the quarter century from 1950 to 1974 to explore the ever changing relationship between the United States and Europe At the height of the Cold War America took on the role of Europe s great protector but rather than create a sense of safety for the Europeans this dependence on an outside

power for protection became the source of great anxiety in Europe Using archival documents that have only recently become available the contributors consider the political social and economic implications of specific American policies on European nations and more importantly the role of American support in the drive for European unification Providing a picture of U S European relations both during the Cold War and today Between Empire and Alliance sheds new light on the future of America and Europe

The Truth Is Our Weapon Chris Tudda,2006-05-01 President Dwight D Eisenhower and his secretary of state John Foster Dulles deployed a tactic Chris Tudda calls rhetorical diplomacy sounding a belligerent note of anti Communism in speeches addresses press conferences and private meetings with allies and with Moscow Yet all the while Tudda discloses the two were confidentially committed to a contradictory course the establishment of a strong system of collective security in Western Europe peaceful accommodation of the Soviet Union and the maintenance of a new albeit divided Germany Tudda explores the Eisenhower administration s pursuit of these two mutually exclusive diplomatic strategies and reveals how failure to reconcile them endangered the fragile peace of the 1950s He builds his argument through three case studies of the administration s badgering the French and their allies to ratify the European Defense Community of its threat to liberate Eastern Europe from Moscow s rule and of its forcing the issue of German reunification By emphasizing the threat from the Soviet Union Eisenhower and Dulles were trying to promote an activist rather than an isolationist foreign policy But their rhetorical diplomacy intensified Cold War tensions with European allies as well as with Moscow and effectively overwhelmed the administration s true diplomatic aims Based on American British Eastern European and Soviet primary sources many only recently unearthed *The Truth Is Our Weapon* is a major contribution to the historiography of Eisenhower s diplomacy and an important statement about the implications of public and private policy making

A World of Turmoil Stephen J. Hartnett,2021-06-01 The United States the People s Republic of China and Taiwan have danced on the knife s edge of war for more than seventy years A work of sweeping historical vision *A World of Turmoil* offers case studies of five critical moments the end of World War II and the start of the Long Cold War the almost nuclear war over the Quemoy Islands in 1954 1955 the d tente deceptions and denials surrounding the 1972 Shanghai Communiqué the Taiwan Strait Crisis of 1995 1996 and the rise of postcolonial nationalism in contemporary Taiwan Diagnosing the communication dispositions that structured these events reveals that leaders in all three nations have fallen back on crippling stereotypes and self serving denials in their diplomacy The first communication based study of its kind this book merges history rhetorical criticism and advocacy in a tour de force of international scholarship By mapping the history of miscommunication between the United States China and Taiwan this provocative study shows where and how our entwined relationships have gone wrong clearing the way for renewed dialogue enhanced trust and new understandings

Investigation of Illegal Or Improper Activities in Connection with 1996 Federal Election Campaigns ,1999 **The Law of the Executive Branch** Dr. Louis Fisher,2014-01-03 The scope of presidential authority has been a constant focus of

constitutional dispute since the Framing The bases for presidential appointment and removal the responsibility of the Executive to choose between the will of Congress and the President the extent of unitary powers over the military even the ability of the President to keep secret the identity of those consulted in policy making decisions have all been the subject of intense controversy The scope of that power and the manner of its exercise affect not only the actions of the President and the White House staff but also all staff employed by the executive agencies There is a clear need to examine the law of the entire executive branch The Law of the Executive Branch Presidential Power places the law of the executive branch firmly in the context of constitutional language framers intent and more than two centuries of practice In this book Louis Fisher strives to separate legitimate from illegitimate sources of power through analysis that is informed by litigation as well as shaped by presidential initiatives statutory policy judicial interpretations and public and international pressures Each provision of the US Constitution is analyzed to reveal its contemporary meaning in concert with the application of presidential power Controversial issues covered in the book include unilateral presidential wars the state secrets privilege extraordinary rendition claims of inherent presidential powers that may not be checked by other branches and executive privilege

Jimmy Carter and the Horn of Africa Donna R. Jackson, 2007-02-26 When Jimmy Carter ascended to the U S presidency in 1977 he stepped into an office still struggling with the aftermath of the Vietnam War and the Watergate scandal As president he had to administer his foreign policy and fight the Cold War within the limits imposed by both With the option of traditional military recourse essentially closed to Carter he redirected American foreign policy to challenge the Soviet Union on a moral level emphasizing regionalism and human rights A careful examination of his policy shows that his approach was similar in other parts of the world Particularly representative were his actions in Ethiopia and Somalia This analysis of President Carter s foreign policy in the Horn of Africa demonstrates Carter s consistent approach to foreign affairs throughout his administration It follows the president s deliberate designing of his overall policy and his attempt to regain for the presidency the trust and confidence of the American people It discusses the ways in which this policy dealt with such issues as human rights abuses Cold War concerns including a strong Communist bloc presence and the violation of international law Finally the book examines the changes that occurred at the end of Carter s administration and the corresponding changes in policy but not in motivation
