Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for

institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Student Retention and Success in Higher Education Mahsood Shah, Sally Kift, Liz Thomas, 2021-09-15 This book draws together international research to assess the quality of successful efforts to retain students The editors and contributors unite diverse global research from countries who have led student retention and success projects at national institutional faculty or program level with positive outcomes The book is underpinned by the philosophy that a more diverse student population requires higher education institutions to fundamentally change in order to facilitate the success of all students All of humanity its economies and societies are being pummelled by waves of pandemic induced crises in tandem with globalisation and demographic shifts Ultimately this book acts as a clarion to higher education institutions to better support and retain their students in order to create a more stable learning environment

Redefining Education and Development Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book's blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to

sustainable global development No Last Place to Rest Dineo Skosana, 2025-02 No Last Place to Rest Coal Mining and Dispossession in South Africa is an exploration of the ongoing struggles faced by families whose lives have been upended by the relentless expansion of coal mining operations in the Mpumalanga and KwaZulu Natal provinces. These regions, burdened with the task of fulfilling the nation's energy needs and boosting the country's economy, witness daily the harsh realities of land dispossession that extend far beyond the mere loss of property. Dineo Skosana presents a compelling argument that dispossession remains a present-day reality and crisis, contradicting the notion that it is merely a relic of the past in the post-apartheid landscape. She challenges the narrow perspective that measures land loss in material and economic terms only. By considering the impact of grave relocations, a common occurrence in these mining-dominated locales, she demonstrates the profound spiritual anguish and dehumanisation communities endure as their lands are excavated and families lose their sacred connections with their ancestors. Skosana argues that the act of dispossession of both the living and the dead from their land wounds the collective soul of a people, eroding their cultural heritage, collective identity, and sense of belonging. This book offers a rich ethnographic account of the experiences, struggles, and resistance of the affected communities, as well as a critical analysis of the legal and policy frameworks that enable their exploitation. In relation to the land question in South Africa, No Last Place to Rest presents deep insights for communities, activists, and government sectors acting in support of social justice and redress. Annual Report ... South Africa. Department of Higher Education and Training, 2016 **History of South Africa** Thula Simpson, 2022-09-01 South Africa was born in war, has been cursed by crises and ruptures, and today stands on a precipice once again. This book explores the country's tumultuous journey from the Second Anglo-Boer War to 2021. Drawing on diaries, letters, oral testimony, and diplomatic reports, Thula Simpson follows the South African people through the battles, elections, repression, resistance, strikes, insurrections, massacres, crashes, and epidemics that have shaped the nation. Tracking South Africa's path from colony to Union and from apartheid to democracy, Simpson documents the influence of key figures including Jan Smuts, Nelson Mandela, Steve Biko, P. W. Botha, Thabo Mbeki, and Cyril Ramaphosa. He offers detailed accounts of watershed events like the 1922 Rand Revolt, the Defiance Campaign, Sharpeville, the Soweto uprising, and the Marikana massacre. He sheds light on the roles of Gandhi, Churchill, Castro, and Thatcher and explores the impact of the World Wars, the armed struggle, and the Border War. Simpson's history charts the post-apartheid transition and the phases of ANC rule from Rainbow Nation to transformation, state capture, to New Dawn. Along the way, it reveals the divisions and solidarities of sport, the nation's economic travails, and painful pandemics from the Spanish flu to AIDS and Covid-19.
