Senate. Committee on the Judiciary, 1990 Policing Hate Crime Gail Mason, Jane Maree Maher, Jude McCulloch, Sharon Pickering, Rebecca Wickes, Carolyn McKay, 2017-03-16 In a contemporary setting of increasing social division and marginalisation Policing Hate Crime interrogates the complexities of prejudice motivated crime and effective policing practices Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities But how do police effectively lead conversations with such communities about problems arising from prejudice

Contemporary police are expected to be active agents in the pursuit of social justice and human rights by stamping out prejudice and group based animosity. At the same time police have been criticised in over policing targeted communities as potential perpetrators as well as under policing these same communities as victims of crime. Despite this history the demand for impartial law enforcement requires police to change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime. Drawing upon a research partnership between police and academics this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities and illuminates ways to overcome communication difficulties. This book will be important reading for students taking courses in hate crime as well as victimology, policing and crime and community.

Policing & Firearms Clare Farmer, Richard Evans, 2022-10-31 Policing and firearms it is a crucial relationship. Should police be routinely armed? If so what restrictions should be imposed on the use of firearms? Where police are not routinely armed there is still a need for specialist armed police: how do these units operate and are they effective? This ground breaking edited book explores the nexus between policing and firearms with a genuinely international focus. Contributors from Ireland, Germany, the United Kingdom, Brazil, Mexico, the United States, Venezuela, New Zealand, Australia and Canada explore the issues from a range of perspectives including human rights, militarization, police legitimacy and the risks police firearms pose to the community and to police themselves. This thought provoking collection is an indispensable resource for law enforcement policymakers and students of policing and criminal justice.

Crime, Truth and Justice George Gilligan, John Pratt, 2013-01-11 This book analyses the production of criminological knowledge with particular reference to the official inquiry. Police Integrity Management in Australia Louise Porter, Tim Prenzler, 2012-04-06 In the past two decades Australia has been the site of major police misconduct scandals and inquiries leading to reform initiatives at the cutting edge of police integrity management practices. Presenting interviews with key informants and an analysis of key documents, *Police Integrity Management in Australia: Global Lessons for Combating Police Misconduct* offers a comprehensive study conducted from 2008 to 2010 of strategies and systems in Australia. Providing a rare overview and critique of a full suite of policies, institutions and programs adopted to combat misconduct in policing, this volume outlines the global problem of police misconduct and its effects. Summarizes current knowledge about best practices in the field, the reality of corruption in Australia and the reform agenda that has driven major change and experimentation. Presents current integrity strategies in place in Australia covering the rationales, evidence of effectiveness and difficulties. Explores undercover stings, drug and alcohol testing, mediation of complaints, ethics training and regulating the police use of force. Organized logically for ease of navigation, each chapter contains an Emerging Issues section highlighting some of the more promising and/or innovative integrity strategies as well as looming concerns and ethical issues. The book concludes with

an overall evaluation of the data presented in the body of the book assessing the strengths and weaknesses of the Australian system and the implications for adoption of these strategies in other police departments around the world
