*Persuasion: History, Theory, Practice* George Pullman, 2013-09-15 George Pullman s lively and accessible introduction to the study of persuasion is an ideal text for use in courses where the understanding and practice of argumentation rhetoric and critical thinking are central Continually challenging his readers to seek and recognize sound evidence to question the obvious and to assess and reassess the credibility of claims made by others including the author s own Pullman shows the way to strong writing effective speaking and rigorous critical thinking

The Sense of the Past Bernard Williams, 2009-02-09 Before his death in 2003 Bernard Williams planned to publish a collection of historical essays focusing primarily on the ancient world This posthumous volume brings together a much wider selection written over some forty years His legacy lives on in this masterful work the first collection ever published of Williams s essays on the history of philosophy The subjects range from the sixth century B C to the twentieth A D from Homer to Wittgenstein by way of Socrates Plato Aristotle Descartes Hume Sidgwick Collingwood and Nietzsche Often one would be hard put to say which part is history which philosophy Both are involved throughout because this is the history of philosophy written philosophically Historical exposition goes hand in hand with philosophical scrutiny Insights into the past counteract blind acceptance of present assumptions In his touching and illuminating introduction Myles Burnyeat writes of these essays They show a depth of commitment to the history of philosophy seldom to be found nowadays in a thinker so prominent on the contemporary philosophical scene The result celebrates the interest and importance to philosophy today of its near and distant past The Sense of the Past is one of three collections of essays by Bernard Williams published by Princeton University Press since his death In the Beginning Was the Deed Realism and Moralism in Political Argument selected edited and with an introduction by Geoffrey Hawthorn and Philosophy as a Humanistic Discipline selected edited and with an introduction by A W Moore make up the trio

**The Routledge Companion to Big History** Craig Benjamin, Esther Quaedackers, David Baker, 2019-08-01 The Routledge Companion to Big History guides readers though the variety of themes and concepts that structure contemporary scholarship in the field of big history The volume is divided into five parts each representing current and evolving areas of interest to the community including big history s relationship to science social science the humanities and the future as well as teaching big history and little big histories Considering an ever expanding range of theoretical pedagogical and research topics the book addresses such questions as what is the relationship between big history and scientific research how are big historians working with philosophers and religious thinkers to help construct meaning how are leading theoreticians making sense of big history and its relationship to other creation narratives and paradigms what is

little big history and how does big history impact on thinking about the future The book highlights the place of big history in historiographical traditions and the ways in which it can be used in education and public discourse across disciplines and at all levels A timely collection with contributions from leading proponents in the field it is the ideal guide for those wanting to engage with the theories and concepts behind big history Demystifying Sustainability Haydn Washington, 2015-02-11

What is sustainability Much has been said about the terms sustainability and sustainable development over the last few decades but they have become buried under academic jargon This book is one of the first that aims to demystify sustainability so that the layperson can understand the key issues questions and values involved Accessible and engaging the book examines the old sustainability of the past and looks to the future considering how economic ecological and social sustainability should be defined if we are to solve the entwined environmental economic and social crises It considers if meaningful sustainability is the same as a sustainable development based on endless growth examining the difficult but central issues of overpopulation and overconsumption that drive unsustainability The book also explores the central role played by society's worldview and ethics along with humanity's most dangerous characteristic denial Finally it looks to the future discussing the appropriate technology needed for sustainability and suggesting nine key solutions This book provides a much needed comprehensive discussion of what sustainability means for students policy makers and all those interested in a sustainable future **Reading as Democracy in Crisis** James Rovira, 2019-04-26 Reading as Democracy in Crisis

Interpretation Theory History explores the dialectic between historical conditions and the reading strategies that arise from them Chapters covering Plato and Derrida G W F Hegel Karl Marx Ludwig Wittgenstein Robert Penn Warren Louise Rosenblatt Theodor Adorno Michel Foucault and Jacques Derrida Judith Butler and Object Oriented Ontology and Digital Humanities provide overviews of and arguments about each subject's thought in its historical contexts suggesting how the reading strategies adopted in each case were in part motivated by specific historical circumstances As the introduction explains these circumstances often involved forms of democracy in crisis so that the collection as a whole is an engagement with the dialectic between democracies that are perpetually in crisis and the seemingly unlimited freedom of our reading practices *Order and History* Eric Voegelin, 2000 Secondary Moderns Brett Levinson, 1996 Secondary Moderns

examines Lezama Lima's analyses of Latin American history and culture The study begins by carefully demonstrating how Lezama breaks with the modern Latin American intellectual tradition that has explored the question of Latin American in terms of an identity politics and moves on to a close reading of the theories of aesthetics representation resistance criticism death religion and ethics that Lezama puts forth via his notion of the American expression The work concludes by analyzing Lezama's politics of affirmation by scrutinizing his writings on Cuba and the Cuban Revolution Secondary Moderns represents a thorough analysis of Lezama's cultural project Latin American twentieth century thought and the complex intersection of Latin American studies and the post Heideggerian philosophical tradition Refuting labels that have too hastily

been attached to Lezama's difficult works those works have been dubbed elitist or transcendentalist the text strives to establish Lezama as one of the great thinkers of historicity in the modern age For while many critics have suggested that Latin American modernity is born via a reading and rewriting of Western discourses Lezama's American expression is the site where this theory is most radically put into practice The practice moreover permits one to understand not only Latin American cultural theory but Western thought itself indeed Lezama's aberrant reading of the West by its very aberrant character reveals aspects of the Western tradition never before explored BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
