Carolyn, 2014-02-01 Tracks the influence of Italian cinema on American film from the postwar period to the present In *The Transatlantic Gaze* Mary Ann McDonald Carolyn documents the sustained and profound artistic impact of Italian directors actors and screenwriters on American film Working across a variety of genres including neorealism comedy the Western and the art film Carolyn explores how and why American directors from Woody Allen to Quentin Tarantino have adapted certain Italian trademark techniques and motifs Allen's *To Rome with Love* 2012 for example is an homage to the genius of Italian filmmakers and to Federico Fellini in particular whose *Lo sceicco bianco* *The White Sheik* 1952 also resonates with Allen's *The Purple Rose of Cairo* 1985 as well as with Neil LaBute's *Nurse Betty* 2000 Tarantino's *Kill Bill* saga 2003 2004 plays off elements of Sergio Leone's spaghetti Western *C'era una volta il West* *Once Upon a Time in the West* 1968 a transatlantic conversation about the Western that continues in Tarantino's Oscar winning *Django Unchained* 2012 Lee Daniels's *Precious* 2009 and Spike Lee's *Miracle at St Anna* 2008 meanwhile demonstrate that the neorealism of Roberto Rossellini and Vittorio De Sica which arose from the political and economic exigencies of postwar Italy is an effective vehicle for critiquing social issues such as poverty and racism in a contemporary American context The book concludes with an examination of American remakes of popular Italian films a comparison that offers insight into the similarities and differences between the two cultures and the transformations in genre both subtle and obvious that underlie this form of cross cultural exchange

Screening the Stage Bert Cardullo,2006 This book examines the historical cultural and aesthetic relationships between theater and film As we enter the 21st century almost all artists students and critics working in theater will have had earlier and greater exposure to film than to theater In fact film has become central to the way in which we perceive and formulate stories images ideas and sounds At the same time film and video occupy an increasingly significant place in theater study both for the adaptation of plays and for the documentation and preservation of theatrical performances Yet far too often theater and film artists as well as educators make the jump from one medium to the other without being fully aware of the ways in which the qualities of each medium affect content and artistic expression This book is intended to fill such a gap by providing a theoretical and practical foundation for understanding the effect that film and drama have had and continue to have on each other s development Moreover this study provides a history of the relationship between drama and cinema starting with the pre cinematic late 19th century impulse towards capturing spectacular action on the stage and examining the artistic and commercial interaction between movies and plays both in popular and experimental work throughout the 20th century Important subjects treated in this book include stage versus screen acting the adaptation process itself the theatrical as well as the cinematic avant garde and the portability or adaptability of dramatic character
