in Medieval England Krista A. Murchison,2021 First comprehensive survey of a major genre of medieval English texts its
 purpose characteristics and reception The bestseller list of medieval England would have included many manuals for
 penitents works that could teach the public about the process of confession and explain the abstract concept of sin through
 familiar situations Among these bestselling works were the *Manuel des p ch s* commonly known through its English
 translation *Handlyng Synne* The *Speculum Vitae* and Chaucer's *Parson's Tale* This book is the first full length overview of this
 body of writing and its material and social contexts It shows that while manuals for penitents developed under the Church's
 control they also became a site of the Church's concern Manuals such as the *Compileison* which was addressed to a much
 broader audience than its English analogue *Ancrene Wisse* brought learning that had been controlled by the Church into the
 hands of layfolk and in so doing raised significant concerns over who should have access to knowledge Clerics worried that
 these manuals might accidentally teach people new sins remind them of old ones or become sites of prurient interest This
 finding and others explored in this book call for a new awareness of the complications and contradictions inherent in late
 medieval orthodoxy and reveal plainly that even writing that happened firmly within the Church's control could promote new
 and complex ways of thinking about religion and the self *Universal Manual of Ready Reference* Henry Woldmar

 enigmatic primary source known as the ancient military manual In particular the volume explores the extent to which these
 diverse texts constitute a genre sometimes unsatisfactorily classified as technical literature and the degree to which they
 reflect the practice of warfare With contributions from a diverse group of scholars the chapters examine military manuals
 from early Archaic Greece to the Byzantine period covering a wide range of topics including readership siege warfare
 mercenaries defeat textual history and religion Coverage includes most of the major contemporary siege manual writers
 including Xenophon Frontinus Vegetius and Maurice Close examination of these texts serves to reveals the complex ways in

which ancient Greeks Romans and Byzantines sought to understand better and impose order upon the seemingly irrational phenomenon known as war Providing insight into the multifaceted collection of texts that constituted military manuals this volume is a key resource for students and scholars of warfare and military literature in the classical and Byzantine periods
