Programming Languages Norman Ramsey, 2022-10-27 Computer scientists often need to learn new programming languages quickly The best way to prepare for this is to understand the foundational principles that underlie even the most complicated industrial languages This text for an undergraduate programming languages course distills great languages and their design principles down to easy to learn bridge languages implemented by interpreters whose key parts are explained in the text The book goes deep into the roots of both functional and object oriented programming and it shows how types and modules including generics polymorphism contribute to effective programming The book is not just about programming languages it is also about programming Through concepts examples and more than 300 practice exercises that exploit the interpreter students learn not only what programming language features are but also how to do things with them Substantial implementation projects include Milner s type inference both copying and mark and sweep garbage collection and arithmetic on arbitrary precision integers

The Geopolitics of Spectacle Natalie Koch, 2018-06-15 Why do autocrats build spectacular new capital cities In The Geopolitics of Spectacle Natalie Koch considers how autocratic rulers use spectacular projects to shape state society relations but rather than focus on the standard approach on the project itself she considers the unspectacular others The contrasting views of those from the poorest regions toward these new national capitals help her develop a geographic approach to spectacle Koch uses Astana in Kazakhstan to exemplify her argument comparing that spectacular city with others from resource rich nondemocratic nations in central Asia the Arabian Peninsula and Southeast Asia The Geopolitics of Spectacle draws new political geographic lessons and shows that these spectacles can be understood only from multiple viewpoints sites and temporalities Koch explicitly theorizes spectacle geographically and in so doing extends the analysis of governmentality into new empirical and theoretical terrain With cases ranging from Azerbaijan to Qatar and Myanmar and an intriguing account of reactions to the new capital of Astana from the poverty stricken Aral Sea region of Kazakhstan Koch s book provides food for thought for readers in human geography anthropology sociology urban studies political science international affairs and post Soviet and central Asian studies
