The SAGE Handbook of Early Childhood Policy Linda Miller, Claire Cameron, Carmen Dalli, Nancy Barbour, 2017-10-02 Recent authoritative evidence suggests that an estimated 200 million children under five fail to achieve their developmental potential due to factors including poor health and nutrition and the lack of stable high quality care A significant number of the world's children today lack the basic rights to health development and protection In light of such statistics early childhood services for young children have expanded

around the world The SAGE Handbook of Early Childhood Policy draws critical attention to policy in Early Childhood Education and Care ECEC its relationship to service provision and its impact on the lives of children and families The perspectives of leading academics and researchers from Europe North America South America Africa Australasia and Asia have been arranged around five key themes Part 1 The Relationship Between Research Policy And Practice Country Case Studies Part 2 Equitable Early Childhood Services Intervention to Improve Children s Life Chances Part 3 Extending Practice The Role of Early Childhood Services In Family Support Part 4 Participation Rights and Diversity Part 5 Future Directions for Early Childhood Policy This handbook is essential reading for practitioners stakeholders and others committed to working within early years services to achieve an awareness of policy and its implications for services and practice Social Policy in Post-Apartheid South Africa Ndangwa Noyoo,2019-11-01 This book critically examines the current social policy in post apartheid South Africa and proposes an alternative social policy agenda to create a new development pathway for the country Taking social policy as a vehicle that will facilitate the creation of a new society altogether namely the Good Society the author argues for the adoption of policy that will socially re engineer South Africa The author shows how the policy tools and development interventions which were undertaken by the post apartheid state in driving South Africa s transformation agenda failed to emancipate many individuals families and communities from the cycle of intergenerational poverty and underdevelopment He contends that social policy interventions that foster the social re engineering of South African society must take place to untangle the inherited colonial apartheid social order This book includes comparative analyses on the Global South and Global North to present the ways in which countries such as post Second World War Great Britain and Sweden and post independence Zambia of the 1960s and 1970s were able to use social policy to create new societies altogether or places similar to the Good Society The conceptual and methodological issues that form the basis for this book reside in public policy making and the public good and will be of interest to scholars of social policy social development and South African society
