Mechademia 9 Frenchy Lunning,2014-11-15 If the source of manga and anime is physically located in Japan the temptation for many critics and scholars is to ask what aspects of Japanese culture and history gave rise to these media This ninth volume of Mechademia an annual collection of critical work on anime and manga challenges the tendency to answer the question of origins by reductively generalizing and essentializing Japaneseness The essays brought together in Mechademia 9 lead us to understand the extent to which Japan might be seen as an idea generated by anime manga and other texts rather than the
