Timber Harvesting, 1999 Capital and the State

Seong-Jin Park, 2025-08-22 This book aims to explore and explain the causes of today's severe economic and inequality problems both in Korea and globally by examining the relationship between capital and the state through the lens of Marx's ideas Most existing books on Marx or on the concept of the state are written by experts in political economy making them heavily theoretical and difficult for general readers to understand In contrast this book investigates Marx's critique of capitalism and the question of what the state is using historical facts and a variety of real world political economic and social examples I hope that reading this book offers an opportunity to think about what is needed to build a more democratic society
