Scholastic Scope October 2013 Teachers Edition:

Hollywood or History? Lisa K. Pennington, Donna Fortune, Mary E. Tackett, Paige Horst, Meghan A. Kessler, 2024-09-01 Teaching and learning through Hollywood or commercial film and television productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. However, purposeful and effective instruction through film is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we are developing a collection of practical classroom ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized, foster critical thinking and civic mindedness. The NCSS College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading, and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-6 teachers of social studies content, by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster inquiry through the careful use of selected motion pictures and television productions.

Wham! Teaching with Graphic Novels Across the Curriculum William G. Brozo, Gary Moorman, Carla Meyer, 2014 Graphic novels are an excellent medium to motivate today's youth to become independent learners and thinkers. This practical guide shows secondary school teachers how to incorporate graphic novels into content area instruction as a tool for meeting the needs of diverse learners and achieving the goals of the Common Core State Standards. The authors provide instructional guidelines with classroom examples that demonstrate how graphic novels can be used to expand content knowledge and literacy in science, social studies, math, and English language arts. Teachers will appreciate the book's specific suggestions for selecting graphic novels and for employing responsive practices that will build students' reading, writing, speaking, listening, and media competencies. The range and complexity of graphic novels being published right now is simply amazing to me. They are part of what should be a balanced array of texts that all can read, enjoy, and learn from. In this volume, the authors point to this proliferation as well as the educative potential of graphic novels. After reading its pages, I feel others will agree with me that they have done an excellent job pointing out how graphic novel creators such as Jim Ottaviani and Larry Gonick communicate much about history, science, and mathematics while also making connections to comprehension and thinking skills that accompany both literacy and content specific learning. From the Foreword by Stergios Botzakis, assistant professor of adolescent literacy in the Theory and Practice in Teacher Education Department at The University of Tennessee Knoxville. The authors have set forth on a task I feel long is overdue: connecting the

literacy potential of graphic novels to the content areas This book is a wonderful contribution to the field of content area literacy studies Michael D Boatright assistant professor Department of English Western Carolina University Book Features Advice for selecting and evaluating graphic novels Teaching strategies for each of the four major content domains Guidance for aligning instruction with the Common Core State Standards A list of educational graphic novels organized by content area Study group questions And more William G Brozo is a professor of literacy in the Graduate School of Education at George Mason University in Fairfax Virginia and author of RTI and the Adolescent Reader Gary Moorman is professor emeritus at Appalachian State University in Boone North Carolina Carla K Meyer is an assistant professor in the Reading Education and Special Education Department at Appalachian State University *The School Librarian's Technology Playbook* Stacy Brown,2020-02-06 Using concrete examples The School Librarian s Technology Playbook offers strategies for school librarians to initiate and support innovative practices throughout their school community The role of school librarians has evolved no longer do they primarily support teachers with reading and literacy resources Many librarians now support teachers in integrating technology tools and innovative teaching practices in their classrooms At her school author and learning coordinator Stacy Brown has pioneered the transition to innovation and technology use in the classroom In The School Librarian s Technology Playbook she showcases different technology tools and innovative strategies that can be incorporated into the classroom such as 3D printing augmented reality green screen applications gamification coding makerEd and more She details the many ways in which school librarians can support teachers as they implement these new practices into their curriculum School librarians will learn how to collaborate with teachers and how to empower them to step outside of their comfort zones to try new tools and teaching methods Readers of this book will also learn how to support teachers as the technology continues to change in this dynamic educational landscape Genre-Based Strategies to Promote Critical Literacy in Grades 4-8 Danielle E. Hartsfield,Sue C. Kimmel,2019-10-21 Draws on critical and radical change theory to equip both aspiring and practicing library and teacher candidates with practical research based ideas for enacting critical literacy practices in middle grade libraries and classrooms Genre Based Strategies to Promote Critical Literacy in Grades 4 8 provides strategies and lesson plans with additional resources and tools for school librarians and teachers to engage middle grade students in reading children s literature through a critical literacy lens To be critically literate readers and thinkers students must learn to question what they read asking themselves who wrote the text why the text was written and how the text positions its readers and others Teaching students how to read from a critical literacy stance is a timely and relevant practice in a world in which text is available instantly and on nearly any mobile device In many cases preparation programs for school librarians and teachers do not teach candidates how to incorporate critical literacy practices in library and classroom settings This book provides both pre service and in service school librarians and teachers with that professional development and guidance for teaching critical literacy in children s literature courses

Stages of Literacy Development Lin Carver, 2023-01-30 This book provides the theory behind integration of reading and writing throughout the stages of literacy development PK 12 It explores strategies and resources for supporting others as they provide literacy instruction Teachers literacy coaches and district leaders will be a particular focus of the book as they need to be prepared to help their faculty integrate reading and writing in their institutions Each chapter begins with a scenario or example from K 12 to flesh out the ideas presented in the chapter Followed by an anticipation guide the chapter delves into the learner characteristics various genres text characteristics and major concepts encountered during each stage of development This theoretical background is followed by five examples of stage appropriate genre illustrating strategies for integrating reading and writing instruction The chapter concludes with activities readers could engage in to deepen their understanding of the concepts presented

The Alignment Premium Brian J Caldwell, 2018-11-01 It is time for a new narrative on schools in Australia The Alignment Premium proposes its major features Analysis of approaches in 13 countries including most of the world s top performers provides 15 benchmarks against which Australia s performance is assessed Findings include Alignment among different levels of government may be commendable in some respects but there is much that is coercive contrived dysfunctional or illusory While achieving a top ten ranking will depend on what occurs in schools attention should shift to how systems are adapting to support all schools to become as good as Australia s best Lack of trust and inertia are serious constraints on efforts to transform Australia s schools Programs for professional learning of teachers and school leaders are impressive when assessed against international benchmarks These should be the top priority Building on findings in The Autonomy Premium the focus should be on professional autonomy The challenge is to design a system in which all those who work in or for schools are fully professional This challenge extends to early childhood and innovative approaches to polytechnic education The Alignment Premium is essential reading for policymakers school leaders and researchers who wish to write the new narrative
