### Dear Teacher,

We consistently selected our authors from across the United States, spent the summer collecting their experiences with math-related topics, and then—using our best judgment—selected the best of the best. Our authors are not just students with talent in the math classroom; they're genuine, enthusiastic, and expert math communicators, and more.

We hope you'll find this advantage while using our resources, especially to extend your students' math knowledge, skills, ideas, passion, and more. Just what your students need when they're fully engaged for the entire year. Making you happy, that's the whole goal!

Thank you,
