Gardner, 2021-09-30 First published in 1966 Experiment and Tradition in Primary Schools was written to

provide an account of the author's pioneering study of the attainment of young children in schools where the curriculum was shaped by their spontaneous interests. The book describes the findings of Gardner's work and assesses them in detail. It will have lasting relevance for those with an interest in the history of education and the development of education in infant and junior schools.

Reading and Remedial Reading A. E. Tansley, 2022-05-29 First published in 1967. Reading and Remedial Reading describes the normal reading programme in the school where the author taught and the diagnosis and treatment of acute difficulties in learning to read. The work deals mainly with so-called educationally maladjusted children, many of whom showed signs of possible damage to the central nervous system, but Mr Tansley believes that the methods and techniques given are applicable to all children irrespective of levels of intelligence who are experiencing difficulties to learn. The results achieved are most encouraging and have been tested by numerous expert visitors from this country and abroad. This is a helpful guide to a large number of people: staffs and students in University Education Departments, educational psychologists, remedial teachers, special school teachers, primary school teachers and medical officers in the School Health Service.

The Really Practical Guide to Primary English Diana Bentley, 1999. This book contains clear chapter objectives, suggestions for further reading on each topic and a glossary explaining key terms that the new or trainee teacher will need to understand. The authors, who have all taught English in the primary setting, are experienced teacher trainers and respected practitioners in their own specialist fields.

Beyond Initial Reading John Potts, 2012. This book investigates children's use of language and considers its implications for children's learning at home and at school. The author compares the language used by children from different social environments at the ages of three, five and seven and considers the different approaches that children take towards their school experiences. The book discusses the problems of studying children's use and development of language and, in doing so, looks at the implications of a number of theories. It uses theory in order to establish a useful framework which will help teachers to become aware of the skills that children have established in using language when they come to school.

The Immigrant School Learner Jordanhill College of Education, Leslie Dickinson, 1975. Description du champ d'investigation et des techniques d'évaluation des données, mesure des capacités intellectuelles, tests d'Anglais pour des jeunes élèves pakistanais. Création de nouveaux tests de langage. Analyse des données, obtenues, performances des enfants cossais et pakistanais. Analyse du contexte historique et social.

The Development of the Delton Silent Reading Tests [microform] : Alternative Test Forms for the Schonell Silent Reading Tests Dudiak, Shirley, 1994. The Delton Silent Reading Test Forms A and B was developed as an alternate test for the Schonell Silent Reading Test which is currently used for screening the reading comprehension of special students. The aim of the Delton Silent Reading Test is to achieve greater consistency in mid-year and mid-program assessments for special students who were originally assessed with the Schonell Silent Reading Test. This study reports the development of the Delton Silent Reading Test and the validation process undertaken to determine the equivalence of content, readability, levels, comprehension strategies, questioning strategies and

student test scores on the Delton and Schonell tests Results indicate that there is no significant difference between matched test items on the Delton and Schonell Silent Reading Tests for item content readability levels and reading and questioning strategies Results from correlations of student test scores indicated that test scores did not differ significantly $r = 0.93$ p

Reading and Its Difficulties M. D. Vernon, 2010-06-24 Originally published in 1971 this book constitutes a scientific enquiry into the basis of reading and dyslexia Professor Vernon considers visual perception reasoning motivation and outlines work in psycholinguistics in order to define the basic psychological processes involved in learning to read She also discusses the problem of specific developmental dyslexia and concludes that the basic deficiency may lie in the processes of conceptual reasoning between the sequence of printed and sounded letters A fundamental disfunction of the brain is also seen as a possibility She stresses the importance of early recognition and remedial treatment of reading difficulties since these may be alleviated if not entirely overcome by suitable treatment

The Slow Learner in the Primary School John McLeod, 1968

Achieving Literacy (RLE Edu I) Margaret Meek, 2013-06-17 How children learn to read well and what kind of teaching helps them is a scarcely penetrated mystery This book is a fascinating and informative research report by a group of teachers who set out to teach children who have failed to acquire a useful degree of literacy in it they discuss their experiences The authors are presenting evidence about a central and constant problem in education an essential kind of evidence which is often ignored because it is

so difficult to collect and present The report presents enough case notes and recordings of lessons and discussions to allow readers to make their own interpretations alongside those of the writers Highly informative about many of the central topics of teaching literacy it discusses children s motivation the influence of social and cultural background on learning and different methods of teaching reading *Slow Learners* Diane Griffin,2005-08-02 First Published in 1978 Routledge is an imprint of Taylor Francis an informa company **backwardness in reading , Educational Testing** James Boyle,Stephen Fisher,2008-04-15 Educational Testing provides support for those undertaking training in and for training providers of the Certificate of Competence in Educational Testing CCET Level A Developed by the British Psychological Society BPS the CCET aims to meet a need for standards for the use of tests in education in the UK to encourage responsible test use by psychologists and non psychologists alike Written by the designers of the certificate and endorsed by the BPS s Steering Committee on Test Standards Educational Testing is the only book of its kind available Covers the 71 elements of the CCET in detail and acts as a course text for those in training Describes each core competence Provides model answers and examples Offers an indication of the range of ways in which the core competences may be assessed by the Assessor based upon the existing BPS Guidance for Assessors document Appendices offer guidance on BPS Standards a glossary of technical terms useful web sites and on line resources and Test Publishers Addresses **Bulletin of the British Psychological Society** British Psychological Society,1972
