We chose to analyze I, Robot. The film takes place in 2035 Chicago where a homicide detective named Del Spooner (who is played by Will Smith) is investigating the death of Dr. Alfred Lanning (James Cromwell), who works at U.S. Del Spooner is living in the time where Robots are everyday objects and are programmed to live alongside humans. Spooner hates robots and is known as a "techno-fob" and suspects that the death might not be a suicide but that one of the robots appears to have been implicated. But the problem is that the robots have three laws integrated into their system.

They can't hurt a human being or allow a human being to come to harm.2. They must do whatever they're told by a humans as long as it doesn't conflict with one of their laws3. They have to defend themselves as long as it doesn't conflict with the other laws. But if the robots can break these laws does that means nothing is in their way to take over the world? Cinematography The first shot starts of with low angle shot but goes to a high angle shot to give us an impression how many robots there are. It also shows us how the robots are all lined up in a military type of structure They are all lined up together in a military type of way. Then we get a close up shot so that we can actually see how many robots there actually are in each line. We get several camera shots from different angles to once again show us how big the warehouse is and how the whole room is filled with the robots.

Tracking is used when Spooner is moving from robot to robot to show us he's not really sure what robot he is after so he goes from robot to robot to threaten them. When Spooner has spotted Sally and is starting the cat and mouse chase the shot goes from a low shot to a high show to show the perfect order of the robots and the perfect lines they are standing in. It makes the viewer also get a feeling of being in a cat and mouse chase. In this scene we get to see the robots from different camera angels.

Here we get to see some panning. Close up on the gun shown in slow-motion to show that he's just about to pull the trigger. Cat and mouse chase. Low angle shot to see the jump of Sonny and an eyeline shot to see that Sonny is looking down at Will Smith who's lying on the floor. Editing With the gates in the start it reads "Gate C" which is the first establishing shot which tells us that they are at some kind of warehouse. It's first when they first enter the factory with the machines working in the background that we get a second establishing shot, that tells us that they have arrived to some sort of warehouse/factory.

The scene then starts of by using shot/reverse shots to show us that Spooner and Dr. Susan Calvin are having a conversation. The next thing we get to see is an eye line shot when Spooner is looking out over the robots to show us what his reacting is forwards to see all these robots standing in the lines. When Spooner is looking at the robots we get an over the shou
