New Frontiers in Forensic Linguistics Monwabisi Ralarala, Russell Kaschula, Georgina Heydon, 2019-06-25 The field of forensic linguistics is a niche area that has not enjoyed much participation from the African continent The theme of language and the law in this book is one that straddles two important aspects of the legal history of

South Africa in particular and how it has impacted on the country's legal and education systems. The declaration by the United Nations of 2019 as The International Year of Indigenous Languages is opportune not only for the launch of this book but for what its research content tells us of the strides taken in ensuring access to justice for all citizens of the world in a language they understand. The contributions by authors in this book tell the story of many African citizens and those hailing from beyond our borders who straddle the challenges of linguistic and legal pluralism in courtrooms across their respective countries. It is our hope that the contributions made in this book will assist in ensuring human rights become a reality for global citizens where indigenous voices have not been heard and that these citizens will be free to give their testimonies in a language of their choice and that they may be heard and understood.

The United Nations Commission on Human Rights John P. Pace, 2020-07-10 In this book John P Pace provides the most complete account to date of the United Nations human rights programme both in substance and in chronological breadth. Pace worked at the heart of this programme for over thirty years including as the Secretary of the Commission on Human Rights and Coordinator of the World Conference on Human Rights which took place in Vienna in 1993. He traces the issues taken up by the Commission after its launch in 1946 and the methods undertaken to enhance absorption and domestication of international human rights standards. He lays out the special procedures carried out by the UN and the emergence of international human rights law. The book then turns to the establishment of the Office of the High Commissioner for Human Rights and the mainstreaming of human rights across the United Nations system eventually leading to the establishment of the Human Rights Council to replace the Commission in 2006. Many of the problems we face today including conflict, poverty and environmental issues have their roots in human rights problems. This book identifies what has been done at the international level in the past and points towards what still needs to be done for the future.

Detention and Its Alternatives Under International Law Lorna McGregor, 2024-02-08 The book analyses the current state of international law on detention and its alternatives across national laws and policies.
