The Covert Sphere Timothy Melley, 2012-11-15 In December 2010 the U.S. Embassy in Kabul acknowledged that it was providing major funding for thirteen episodes of Eagle Four a new Afghani television melodrama based loosely on the blockbuster U.S. series 24 According to an embassy spokesperson Eagle Four was part of a strategy aimed at transforming public suspicion of security forces into something like awe and respect Why would a wartime government spend valuable resources on a melodrama of covert operations The answer according to Timothy Melley is not

simply that fiction has real political effects but that since the Cold War fiction has become integral to the growth of national security as a concept and a transformation of democracy In *The Covert Sphere* Melley links this cultural shift to the birth of the national security state in 1947 As the United States developed a vast infrastructure of clandestine organizations it shielded policy from the public sphere and gave rise to a new cultural imaginary the covert sphere One of the surprising consequences of state secrecy is that citizens must rely substantially on fiction to know or imagine their nation's foreign policy The potent combination of institutional secrecy and public fascination with the secret work of the state was instrumental in fostering the culture of suspicion and uncertainty that has plagued American society ever since and Melley argues that would eventually find its fullest expression in postmodernism *The Covert Sphere* traces these consequences from the Korean War through the War on Terror examining how a regime of psychological operations and covert action has made the conflation of reality and fiction a central feature of both U S foreign policy and American culture Melley interweaves Cold War history with political theory and original readings of films television dramas and popular entertainments from *The Manchurian Candidate* through *24* as well as influential writing by Margaret Atwood Robert Coover Don DeLillo Joan Didion E L Doctorow Michael Herr Denis Johnson Norman Mailer Tim O'Brien and many others *Reading in the Wild* Donalyn Miller, 2013-10-21 In *Reading in the Wild* reading expert Donalyn Miller continues the conversation that began in her bestselling book *The Book Whisperer* While *The Book Whisperer* revealed the secrets of getting students to love reading *Reading in the Wild* written with reading teacher Susan Kelley describes how to truly instill lifelong wild reading habits in our students Based in part on survey responses from adult readers as well as students *Reading in the Wild* offers solid advice and strategies on how to develop encourage and assess five key reading habits that cultivate a lifelong love of reading Also included are strategies lesson plans management tools and comprehensive lists of recommended books Copublished with Editorial Projects in Education publisher of *Education Week* and *Teacher* magazine *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of wild reading When the thrill of choice reading starts to fade it's time to grab *Reading in the Wild* This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures Cris Tovani secondary teacher Cherry Creek School District Colorado consultant and author of *Do I Really Have to Teach Reading* With *Reading in the Wild* Donalyn Miller gives educators another important book She reminds us that creating lifelong readers goes far beyond the first step of putting good books into kids hands Franki Sibberson third grade teacher Dublin City Schools Dublin Ohio and author of *Beyond Leveled Books* *Reading in the Wild* along with the now legendary *The Book Whisperer* constitutes the complete guide to creating a stimulating literature program that also gets students excited about pleasure reading the kind of reading that best prepares students for understanding demanding academic texts In other words Donalyn Miller has solved one of the central problems in language education Stephen Krashen professor emeritus University of Southern California **Watchdog** Will McIntosh, 2019-05-07
