Science Interactions ,1998 **Discovering Psychology** Don H. Hockenbury,Sandra E. Hockenbury,2010-01-27 A multimedia enhanced eBook integrates the text a rich assortment of media powered learning opportunities and a variety of customization features for students and instructors Worth s acclaimed eBook platform was developed by a cognitive psychologist Pepper Williams Ph D Yale University who taught undergraduate psychology at the University of Massachusetts

The Neuroscience of Everyday Life Winnie Dunn,Timothy J. Wolf,Lorie Gage Richards,Dawn M. Nilsen,2025-01-22 By weaving vignettes and case studies throughout this fascinating and original textbook provides an accessible primer not only on the key principles of neuroscience but crucially how they may manifest in the everyday lives of people with neurological conditions Each chapter begins with the story of a person or family including a description of what they want to do in their everyday life before presenting the neuroscientific principles that underlie this person s situation Rather than a technical book about neuroanatomy physiology or pathology the spotlight is on understanding the way that neurological differences impact a person s life Through focusing on a particular condition each chapter highlights a different aspect of the nervous system and what happens when things change A wide range of topics are covered from conditions such as Parkinson s dementia MS and autism to conditions resulting from traumatic events such as spinal cord injuries stroke and chronic pain The goal of the book is to trace a thread from neuroscience to how the nervous system affects active

participation in daily activities This approach gives students and professionals a thorough and informed grounding to support problem solving in practice improving evidence based assessment interventions and outcomes Following current evidence based teaching practices this text emphasizes engaged teaching learning methods throughout each chapter to encourage students own active discovery This ground breaking text will be essential reading for any health science students as well as professionals in practice

Psychology (Paperback) Pearson, Glenn Meyer, Saundra Ciccarelli, 2005-10 NEW MyPsychLab edition available October 2007 Text comes automatically with MyPsychLab for no additional charge Includes end of chapter study tips directing students to MyPsychLab for further study No changes to pagination from Ciccarelli Meyer Psychology 1e The most learner centered and assessment driven text available Using the APA undergraduate psychology learning outcomes the authors establish clear learning objectives for students and tie the text assessment to these objectives Praised for a very engaging writing style comprehensive coverage of key research and strong pedagogical features Ciccarelli focuses on getting students to actually read their textbook Student feedback from numerous class tests and instructor feedback from an extensive reviewing process emphasize the appeal of Ciccarelli s approach to teaching and learning in today s classroom
