Kennedy, 2014-12-10 Heralding a push for higher education to adopt a more global perspective the term globalizing knowledge is today a popular catchphrase among academics and their circles The complications and consequences of this desire for greater worldliness however are rarely considered critically In this groundbreaking cultural political sociology of knowledge and change Michael D Kennedy rearticulates questions approaches and case studies to clarify intellectuals and institutions responsibilities in a world defined by transformation and crisis Globalizing Knowledge introduces the stakes of globalizing knowledge before

examining how intellectuals and their institutions and networks shape and are shaped by globalization and world historical events from 2001 through the uprisings of 2011-13. But Kennedy is not only concerned with elaborating how wisdom is maintained and transmitted; he also asks how we can recognize both interconnectedness and inequalities and possibilities for more knowledgeable change within and beyond academic circles. Subsequent chapters are devoted to issues of public engagement, the importance of recognizing difference and the local's implication in the global, and the specific ways in which knowledge images and symbols are shared globally. Kennedy considers numerous case studies from historical happenings in Poland, Kosovo, Ukraine, and Afghanistan to today's energy crisis, Pussy Riot, the Occupy Movement, and beyond to illuminate how knowledge functions and might be used to affect good in the world.

**Youth and Disability** Jenny Slater, 2016-02-11. In this ground-breaking book, Jenny Slater uses the lens of the reasonable to explore how normative understandings of youth disability and the intersecting identities of gender and sexuality impact upon the lives of young disabled people. Although youth and disability have separately been thought within socio-cultural frameworks, rarely have sociological studies of youth and disability been brought together. By taking an interdisciplinary critical disability studies approach to explore the socio-cultural concepts of youth and disability alongside one another, Slater convincingly demonstrates that youth and disability have been conceptualised within medical/psychological frameworks for too long. With chapters focusing on access and youth culture, independence, autonomy, and disabled people's movements, and the body, gender, and sexuality, this volume's intersectional and transdisciplinary engagement with social theory offers a significant contribution to existing theoretical and empirical literature and knowledges around disability and youth. Indeed, through highlighting the ableism of adulthood and the falsity of conceptualising youth as a time of becoming independent adult, the need to shift approaches to research around disabled youth is one of the main themes of the book. This book therefore is a provocation to rethink what is implicit about youth and disability. Moreover, through such an endeavour, this book sits as a challenge to Mr Reasonable.

**New Scholarship in Critical Quantitative Research, Part 2: New Populations, Approaches, and Challenges** Ryan S. Wells, Frances K. Stage, 2015-04-22. This volume is the second in a two-part series on differentiating approaches to quantitative research from more traditional positivistic and postpositivistic approaches. While the first volume provided an expanded conceptualization of critical quantitative inquiry, this volume concludes the series by applying critical quantitative approaches to new populations of college students who are rarely addressed in institutional and higher education research, such as American Indian/Alaska Native and students with disabilities, applying the principles of quantitative criticalism to advanced methods of statistical analysis and discussing the variety of challenges to overcome and presenting a future research agenda using these methods. This work is of interest to institutional and higher education researchers who want to expand and critique new ways of thinking about the broad array of populations participating in and served by higher education while keeping in mind the goals of revealing inequity, challenging marginalization, and helping all students to

succeed This is the 163rd volume of this Jossey Bass quarterly report series Timely and comprehensive New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination information analysis program evaluation and institutional management **The Borders of**

**"Europe"** Nicholas De Genova, 2017-08-26 In recent years the borders of Europe have been perceived as being besieged by a staggering refugee and migration crisis The contributors to The Borders of Europe see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement Addressing the new technologies and technical forms European states use to curb control and constrain what contributors to the volume call the autonomy of migration this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe They also outline how from Istanbul to London Sweden to Mali and Tunisia to Latvia migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears this timely volume demonstrates how the enforcement of Europe's borders is an important element of the worldwide regulation of human mobility Contributors Ruben Andersson Nicholas De Genova Dace Dzenovska Evelina Gambino Glenda Garelli Charles Heller Clara Lecadet Souad Osseiran Lorenzo Pezzani Fiorenza Picozza Stephan Scheel Maurice Stierl Laia Soto Bermant Martina Tazzioli **Institutions Unbound** David Brunsma, Keri Iyall

Smith, Brian Gran, 2016-03-02 Institutions like education family medicine culture and law are powerful social structures shaping how we live together As members of society we daily express our adherence to norms and values of institutions as we consciously and unconsciously reject and challenge them Our everyday experiences with institutions not only shape our connections with one another they can reinforce our binding to the status quo as we struggle to produce social change Institutions can help us do human rights Institutions that bridge nation states can offer resources including norms to advance human rights These institutions can serve as touch stones to changing minds and confronting human rights violations Institutions can also prevent us from doing human rights We create institutions but institutions can be difficult to change Institutions can weaken if not outright prevent human rights establishment and implementation To release human rights from their institutional bindings sociologists must solve riddles of how institutions work and determine social life This book is a step forward in identifying means by which we can loosen human rights from institutional constraints **PGT Commerce**

Marinova,2017 Within recent years a new body of literature has emerged within international relations on transnationalism and foreign policy This literature has thus far focused on the strategic relationship between home states and their ethnic lobbies abroad often with regard to remittances to and politics in the home country This book breaks new ground in that it develops a theory about when how and for what reasons host states use diasporas and the ethnic lobbies they generate to advance foreign policy goals Ask What You Can Do for Your New Country focuses on a previously unexamined phenomenon how host governments utilize diasporas to advance their foreign policy agendas in mutually beneficial ways As was demonstrated in the run up to the 2003 invasion of Iraq when Iraqi exiles testified that Saddam Hussein possessed weapons of mass destruction ethnic lobbies have been utilized strategically by the

United States and other countries for the promotion of political objectives Host states have even promoted the creation of such ethnic lobbies for this purpose As Nadejda K Marinova shows those who participate in such lobbies are of a particular subset of migrants who are politically active express a sustained vision for homeland politics and who often have existing ties to political institutions within the host state These groups then act as a link between the public and officials in their home state and other generally less politically active members of the diaspora via a coordinated effort by the host state She develops a theoretical model for determining the conditions under which a host state will decide to promote and utilize an ethnic lobby and she tests it against eight cases including the Bush Administration's use of the American Lebanese Cultural Union and the World Council for the Cedars Revolution in developing policy towards Lebanon and Syria the Iraqi National Congress in endorsing the US invasion of Iraq the Cuban American Committee's cooperation with the Carter administration in attempting to normalize relations with Cuba and the International Diaspora Engagement Alliance IdEA launched by Secretary of State Hillary Clinton in 2011 to promote economic development in a number of countries
