from economic theology this provocative book uncovers deep rooted religious concepts and shows how they continue to influence contemporary views of work and unemployment A Team of Five Million? Jennifer Curtin,Lara Greaves,Jack Vowles,2024-06-25 New Zealand was one of a handful of countries that held a national election in the midst of the Covid 19 pandemic Its policy response stood out as remarkably successful Indeed several years on from the onset of the crisis in 2023 New Zealand still retained a record of no excess deaths While New Zealanders were voting on October 17 2020 their country

had only recorded 25 confirmed deaths out of a population of five million Then support for the government's crisis management was at its height Labour the leading party in the incumbent coalition government secured a historic election victory Prime Minister Jacinda Ardern had taken up the metaphor of the New Zealand people as a team of five million facing the Covid 19 threat together This book seeks to explain the success of the government's strategy through an analysis of the election campaign and outcome The authors also address the limits of this approach and the extent to which some voters felt alienated rather than connected with the team The election outcome was a big short term swing of the electoral pendulum It did not generate a reset of the party system Three years on as the 2023 election loomed into sight the party system looked much as it did prior to the pandemic and Labour's success in 2020 was about to be dramatically reversed *Haemophilia in Aotearoa New Zealand* Julie Park, Kathryn Scott, Deon York, Michael Carnahan, 2019-01-24 *Haemophilia in Aotearoa New Zealand* provides a richly detailed analysis of the experience of the bleeding disorder of haemophilia based on longterm ethnographic research The chapters consider experiences of diagnosis how parents children and adults care and integrate medical routines into family life the creation of a gendered haemophilia the use and ethical dilemmas of new technologies for treatment testing and reproduction and how individuals and the haemophilia community experienced the infected blood tragedy and its aftermath which included extended and ultimately successful political struggles with the neoliberalising state The authors reveal a complex interplay of cultural values and present a close up view of the effects of health system reforms on lives and communities While the book focuses on the local biology of haemophilia in Aotearoa New Zealand the analysis allows for comparison with haemophilia elsewhere and with other chronic and genetic conditions *Sociologies of New Zealand* Charles Crothers, 2018-04-13 This book provides the first comprehensive analysis of the various sociologies of New Zealand from the late 19th century to the present day Opening with previously undocumented insights into the history of proto sociology in New Zealand the book then explores the parallel stories of the discipline both as a mainstream subject in Sociology departments and as a more diffuse sociology within other university units The rise and fall of departments specialties and research networks is plotted and the ways in which external and internal factors have shaped these is explained Different generations of sociologists including many immigrants are each shown to have left their unique mark on New Zealand sociology The author demonstrates that the rising interest in topics specific to New Zealand has been accompanied by increasing capacities to contribute to world sociology This book will have interdisciplinary appeal across the social sciences and provides a valuable study of the development of sociology in a semi peripheral country **The Indian Farmers' Protest of 2020-2021** Christine Moliner, David Singh, 2024-08-21 The Kisan Andolan or the Indian farmers protest of 2020 2021 is one of the longest and biggest and victorious social movements in the history of independent India This book adopts a multidisciplinary approach to contextualise the movement in the long run It engages with the historical social and religious roots of the Andolan examining what makes it so unique and transformative for Indian polity It explores the dis

continuities with previous resistance and contestation movements in India and globally and debates the role so far of regional religious and class caste gender identities Through interviews the volume also gives a specific voice and platform to grassroots activists and farmers from the movement Part of the Social Movements and Transformative Dissent series the book will appeal to scholars activists and a wider audience interested in social movements and dissent politics in India and the Global South It will also be of interest to students of economics political science anthropology sociology government agrarian studies Sikh and Punjab studies politics international relations and diaspora studies
