The following words are likely to be appropriate for this question: - low sugar drinks 200 units above break-even 10 000 units sold 9800 (break-even) Other appropriate examples in context can still be credited.

- 1 After identifying a gap in the soft drinks market, Jerome developed a low sugar drink. He borrowed \$5 000 from family and friends to start-up a business and to provide working capital. Jerome operates as a sole trader. To promote his product, Jerome handed out free samples in the town centre. In the first year, Jerome's business sold 10 000 units. This is 200 units more than his break-even output. Jerome is considering ways to increase added value.

Justification might include: Entrepreneurs take the risk of investing their own money [x] this may bring high rewards [an]. Being creative may be a more important characteristic as making a business different to its competitors [x] can lead to increased sales [an]. In a competitive market creativity is especially important because it helps the business stand out from competitors. [eval] An entrepreneur can take risks, but if customers will not buy, they will not be successful. [eval]	6	This is a general question so there are no marks for application. For evaluation to be awarded justification will usually follow on from relevant analysis of points.
