South Africa and United Nations Peacekeeping Offensive Operations Garcia, Antonio, 2018-08-16 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIB s objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

Intra-Africa Migrations Inocent Moyo, Jussi P. Laine, Christopher Changwe Nshimbi, 2021-02-21 This book discusses regional and continental integration in Africa by examining the management of migration across the continent It examines borders and securitisation of migration and the challenges and opportunities that arise out of reconfigured continental demographics The book offers insights on intra Africa migrations and highlights how intra continental migration creates socio economic and cultural borders It explores how these borders beyond the physical boundaries of states including the Berlin Conference constructed borders create cultural divides challenges for economic integration and cross border security and irregular migration patterns While the movement of economic goods is valued for regional economic integration the mobility of people is seen as a threat This approach to migration contradicts the intentions of true integration and development and triggers negative responses such as xenophobia that cannot be addressed by simply managing the physical border and allowing free movement This book engages in a pivotal discussion of these issues which are hitherto missing in African border studies by demonstrating the ubiquity and overreaching influence of various kinds of borders on the African continent With multidisciplinary contributions that provide an in depth understanding of intra Africa migrations and strategies for enhanced migration management this book will be a useful resource for scholars and students studying geography politics security studies development studies African studies and sociology

South Yemen's Independence Struggle Anne-Linda Amira Augustin, 2021-11-30 A bold firsthand account of one of the persistent Arab uprisings in Yemen At its beginning in 2007 the Southern Movement in South Yemen was a loose merger of different people most of them former army personnel and state employees of the People's Democratic Republic of Yemen PDRY who were forced from their jobs after the war in 1994 only four years after the unification between the PDRY and the Yemen Arab Republic This bold ethnographic account of a persistent Arab uprising in a rarely studied corner of the Middle East explores why the Southern Movement has grown so tremendously during the last decade and how it developed from a primarily social movement demanding social rights into a mass protest movement claiming independence for a state that had long vanished from the world map Anne Linda Amira Augustin asks why so many young people born after 1990 joined the movement and demanded the re-establishment of a state that they had never themselves experienced At the core of South Yemeni resistance lies the transmission from generation to generation of a dominant counternarrative which may be seen as the continuation and rehabilitation of the PDRY's national narrative This narrative amplified through everyday communication in families and neighborhoods but also by media makers journalists school and university teachers civil society actors and by the movement's activists opposes the national unity narrative of the Republic of Yemen and intensifies the demands for an independent state
