Sa Army Intake 2015:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

SADC Gender Protocol 2015 Barometer Morna, Colleen Lowe, Dube, Sifiso, 2016-02-22 In August 2008 Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub-regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time-bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol expire in 2015. Now that 2015 is here, we need to step back, assess and reposition. In June 2014 SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year, ministers added that they want the Protocol to be accompanied by a Monitoring, Evaluation and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen, resolve, reconsider, reposition and re-strategise for 2030.

Intake 131 Sandy Sanderson,2015-07-14 In 1973 Sandy

Sanderson attended School of Infantry in Gwelo in what was then central Rhodesia for officer training. Now more than 40 years on he has written a book based on the diary he kept. The result is a frank, detailed and sometimes humorous account of the training as it happened. The book will be intriguing to people from all parts of the world with an interest in the military. In June 1977 Time magazine commented: 'Man for man the Rhodesian Army ranks amongst the world's finest fighting units. If this were true the training must surely have contributed. Recruits were trained by some of the toughest and most experienced military instructors in the world, all of whom possessed a varied if profane vocabulary. As Sandy put it: 'Any Rhodesian drill instructor could string a sentence together consisting entirely of expletives apart from the odd indefinite article and make perfect sense. In spite of this they were hugely respected and their expertise undoubtedly saved many lives.' **Oxford**

Textbook of Children's Sport and Exercise Medicine Neil Armstrong, Willem van Mechelen, 2017. Now consisting of fifty innovative chapters authored by internationally recognised scientists and clinicians, the extensively revised third edition of the Oxford Textbook of Children's Sport and Exercise Medicine is the fundamental reference work on paediatric exercise medicine and sport science. Using a scientific evidence-based approach and new insights into understanding the exercising child and adolescent, this title covers a complex and rapidly evolving field. Designed to inform, challenge and support all involved in the study and treatment of the exercising child and adolescent, the Oxford Textbook of Children's Sport and Exercise Medicine presents complex scientific and medical material in an accessible and understandable manner. With extensive sections on Exercise Science, Exercise Medicine, Sport Science and Sport Medicine, chapters comprehensively cover training, physical activity in relation to health issues, the physiology of the young athlete and injury, using the research and practical experience of a renowned author team. Fully illustrated and extensively revised, new topics and fully updated material complement the state-of-the-art approach of previous editions. With an increased focus on molecular exercise physiology, close to 75% of the content found in this edition is new material reflecting the many advances and developments across this discipline.

SADC Gender Protocol 2017 Barometer Morna, Colleen Lowe, Makamure, Lucia, 2017-10-04. The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, its updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable Development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017, the Ministers adopted a Monitoring, Evaluation and Reporting Framework (MERF) that will be the basis of future reporting. Now in its ninth edition, the 2017 Barometer is the first assessment of the Post 2015 SADC Gender Protocol. Moving with the times, the Alliance has expanded the two key main yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators as

well as its own unique measures of voice choice and control The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030
