SOUTH AFRICAN ARMY

MILITARY SKILLS DEVELOPMENT SYSTEM (MSDS) 2019

BACKGROUND

THE MILITARY SKILLS DEVELOPMENT SYSTEM (MSDS)

The South African Army, through its Military Skills Development System (MSDS), is offering young South African citizens an opportunity to serve in uniform over a two-year period. The Military Skills Development System is a two-year voluntary service system with the long term goal of enhancing the SA National Defence Force's deployment capability.

Successful MSDS candidates will be appointed in a specific **mustering** and will be called up to a Training Unit, where members will complete their Basic Military Training, **specific mustering** and functional training in the first year and be utilized or deployed in the second year of the MSDS.

Requirements:

- No dual citizenship be a South African citizen only
- **Grade 12 Applicants must be between the ages of 18-22 years**
- Graduates and/or other Tertiary Qualification up to the age of 28 years
- Successfully completed Grade 12 (preferable with university entrance)
- Leadership potential
- Not be area bound
- Have no criminal offence record or pending cases
- Comply with medical fitness requirements for appointment in the SANDF
- Be prepared to serve in uniform, undergo Basic Military and Functional Training

Trainings:

The SA Army's mandate focuses on the provisioning of combat ready forces and plays a leading role in landward operations. Training will be decentralized to operational units where members will be appointed to undergo Basic Military Training, **mustering** training and be deployed as per **requirements** of the South African Army.

Incomplete forms will not be considered. Only applicants who have passed Grade 12 may apply and must not be older than the age stipulated above on the date of reporting for training. Certified copies of ID document, Grade 12 certificate or Post grade 12 qualifications and CV must accompany this application form to SA Army Recruitment, Private Bag X 981, Pretoria, 0001.

N.B. During the selections, the applicants will be subject to Psychometric evaluations; Medical Evaluations; Vetting and Verification of qualifications.

Crane-Godreau, Eileen Mcneely, Christopher Scheibler, 2023-11-20 Aviation plays vital roles in commerce defense science and leisure travel Irrespective of the purpose of flight crew and passengers are challenged by exposure to a variety of environmental conditions that can differ widely from work and travel environments on the surface of the Earth With anticipated changes in aviation and space technology new challenges to health and safety of crew and passengers can be expected In this Research Topic we welcome contributions from those whose work and interests are relevant to the health and safety of crew and passengers This includes but is not limited to health and safety professionals FAA examiners corporate medical officers aerospace and occupational physicians physiologists military and scientific team members public health professionals as well as engineers who are tasked with crew and passenger health and safety design projects While 4 1 billion passengers fly on commercial airlines annually and this figure is even higher when taking into account privately owned aircraft and military flight for the most part aviation is safe Passengers do arrive at their destinations with little concern to their own well being and flight is generally well tolerated However older flyers people with diagnosed or undiagnosed preexisting disease and other vulnerable passengers such as young children and pregnant women may be at risk of complications and crew may be at special risk due to the frequency and duration of their many flight related exposures Health and safety issues for crew and passengers include but are not limited to potentially severe circadian rhythm disruption potential health effects of low level cosmic ionizing radiation exposure at altitude reduced oxygen delivery and tissue hypoxia at cabin pressurization cabin air contamination by engine gases toxic materials used in uniforms and some cabin seat materials occupational noise pesticides used for cabin disinsection lack of adequate crew rest on layovers or between flights cardiovascular demands of flight and effects of flight related dehydration the current absence of screening protocols especially in the context of a rising number of elderly and vulnerable flyers lack of healthy nutrition at airports and in flight availability of food and hydration as well as adequate cabin temperature under delay conditions effects of alcohol use on flight related physiological and behavioral health risks anxiety and psychological distress associated with air travel the effects of long haul or ultra long haul flights on thromboembolic events as well as smoking cessation efforts and related psychological outcomes job related stress and harassment among crew Cosmic ionizing and non ionizing radiation exposure have drawn attention as have historic exposures of crew and passengers to second hand cigarette smoke The threat of

political and interpersonal violence and altercations involving aviation cannot be overlooked On board medical emergencies run a wide gamut and the capacity to respond becomes more problematic as the duration of flights becomes longer or in the case of flight over oceans and the poles In addition in flight and post flight embolisms and myocardial infarctions are more prevalent than might be expected We hence encourage manuscripts that address in flight medical response including the capabilities on different types of aircraft on potential interventions by crew and medical volunteers In addition aviation as a vector for the carriage of disease is a significant concern to public health and security of populations world wide and we welcome submissions regarding infectious disease epidemiology and medicine as it relates to air travel Insects and occasional unplanned travel by birds and rodents can present additional public health concerns We are approaching an era where space travel may soon be increasingly common Future flights for near Earth orbit by leisure travelers and as well as travel to the moon and Mars raise a host of new questions with health and safety implications What are the proposed health and safety accommodations going to be Who will be allowed to travel Perhaps the most interesting question is who will make the rules

Sails and Shadows Patricia Seed,2026 How the early Portuguese Empire facilitated the modern slave trade The Portuguese conquered the challenges of sailing the unforgiving Atlantic Ocean extending their colonial empire along Africa s western shores With their dedication to developing new sailing techniques and groundbreaking new knowledge of weather patterns and ocean currents Portuguese mariners set the tone for the Age of Exploration But their navigational achievements had horrific consequences for the people of western Africa subjection to the slave trade Patricia Seed examines the historical

and climatic odds that Portuguese seafarers overcame to be the first Europeans to tame the Atlantic Using insights from fields ranging from oceanography to ethnography she recounts how the Portuguese rapidly innovated and achieved profound new understandings of the ocean and sailing At the same time she foregrounds the reality that these innovations enabled them to inflict unimaginable cruelty as against sometimes violent resistance they forged what became their spoils of empire the lucrative trade in human cargo that enslaved millions across Africa and beyond Sails and Shadows is a history of incredible ingenuity outweighed and overshadowed by the horrors it wrought
