AIR CRASH INVESTIGATIONS: PILOT ERROR KILLS 50 PEOPLE in BUFFALO, the Crash of Colgan Air Flight

3407 Allistair Fitzgerald, 2010-04-16 On February 12 2009 about 2217 eastern standard time Colgan Air Flight 3407 a Bombardier DHC 8 400 on approach to Buffalo Niagara International Airport crashed into a residence in Clarence Center New York 5 nautical miles northeast of the airport The 2 pilots 2 flight attendants and 45 passengers aboard the airplane were killed one person on the ground was killed and the airplane was destroyed The National Transportation Safety Board determined that the probable cause of this accident was a pilot s error **Upset Recovery** Facundo Conforti, All aircraft are designed to remain stable in flight The balance of forces produced during flight provides a safety factor that must be monitored and maintained It is therefore the crew s responsibility to maintain and monitor stability supported by all the technological and aerodynamic benefits available It is also well known that loss of control in flight is one of the causes of aviation accidents with the highest fatality rate Throughout this book we will see that although it is not the most frequent cause it is one of the most critical in terms of its consequences This trend has been evaluated worldwide and various aviation authorities manufacturers and entities have contributed to training programs on stall recovery and abnormal maneuvers In this new book you will find an analysis of flight mechanics and aerodynamics illustrated with practical exercises and analyses of real accidents where deficiencies in maintaining control of the aircraft in flight occurred Capt Facundo Conforti *The Seven Year-Old Pilot* Capt. Steven Archille, 2012-03-23 Flying has been my dream since before I can remember literally My Aunt Odette tells me that when I was three years old she took me with her to the Port au Prince International Airport to pick someone up and when I saw an airliner up close for the first time I excitedly yelled out I want to drive that I don t recall that event but it serves as evidence that my fascination with flying began at a remarkably young age My first memory of wanting to fly came a few years later at the age of seven I was on my very first flight from Port au Prince to New York City where I was going to start a new life in a new country I remember looking at all the people boarding the airplane and wondering how that big silver bird was going to get us into the air that silver bird was an American Airlines Boeing 727 To this day the whole experience is vivid in my mind being greeted with a smile by the captain at the aircraft entry door the funny feeling in my stomach as the plane accelerated down the runway leaping into the air and my utter disbelief that we didn t drop out of the sky I was mesmerized by it all and by the time the plane came to a stop at our gate my dream had been born I wanted to become an airline pilot I have been blessed to be living that dream since 1999 It s a dream from which I hope never to awaken This is the story of the lifelong journey I have taken in realizing that dream I invite you to come along with me as we go from my birth in Haiti to the present day as I live my dream every day You will come with me as I move to America at the age of seven a country I knew nothing about and whose language I didn t speak a land that would truly prove to be the land of opportunity You will feel my sense of wonder and bewilderment growing up in New York City trying to understand my new

world You will face my struggles to fit in with the kids in the housing project where my family lived for a decade as Mom and Dad saved money to buy a house You will meet my parents who encouraged my dream of flying and my fifth grade teacher who helped me to see that it was possible not only to dream it but also to achieve it It s a story of potential fulfilled and my family s sacrifices to get me through college and flight school You will fly with me from my first lesson to my first airline job as a copilot to the day I earned my four stripes and first heard someone call me Captain You will sit with me in the captain s seat as I fly an airline jet over Haiti for the first time looking down from thirty eight thousand feet onto the land of my birth where my dream had been born You will soar with me over the majestic Amazon jungle in Brazil over the desert flanked Nile River in Egypt and the sparkling Mediterranean Sea You will fly with me through New York City blizzards Indian monsoons and Arabian sandstorms You will travel with me on adventures to Europe South America the Middle East South Asia the Caribbean and other parts of the world I used to dream of going to as a child places that have affected me profoundly and where I left a little part of myself I have seen all these things through the eyes of the seven year old boy from Haiti that I was and in many ways still am the little boy who had a sense of just how incredible the world and life are who dreamt of a life of worldwide adventure and was blessed to have his dream come true That is the reason for the title of this book *The Seven Year Old Pilot* because even after years of flying around the world in many ways I still feel like that little boy and I always try to approach my travels and my life with his sense of gratitude amazement and awe I truly believe that every one of us has life experiences and lessons worth sharing that can inspire enlighten teach and benefit others because we have all liv
