

SACHS-DOLMAR 120 super

68 ccm, 3.5 kW (8.0 HP SAE)

Light yet powerful cutting: an ideal universal chain saw

The SACHS-DOLMAR 120 Super is a modern universal chain saw. It is ideal for thinning as well as for felling, is light and handy for fast, safe thinning yet powerful enough to fell medium sized timber.

The 68-ccm engine has a power rating of 3.5 kW (8.0 HP SAE) with a total weight of 16 lbs. complete with 15" guide bar and chain.

The SACHS-DOLMAR 120 Super therefore has an unsurpassed power-to-weight ratio and is also ideal for jobs in difficult areas, where its versatility copes with all situations.

Perfected professional technology

The 120 Super is the advanced top model of a range of chain saws, which have been tried and proved over many years. It has many extras and improvements, and fulfils the requirements which professionals demand of a reliable chain saw on tough jobs. It handles well in all positions, comfort in use was a major design feature.

□ The engine of the SACHS-DOLMAR 120 Super has, in comparison to other makes, the renowned SACHS-DOLMAR low power characteristics, i.e. high torque at low speed and low cylinder temperature.

In practice that means less fuel consumption, as well as less noise and vibration. Due to this favourable torque characteristic, the SACHS-DOLMAR 120 Super combines the power of a machine in the 70-ccm category with the lightness of a saw in the 60-ccm category.

□ The cylinder of the 120 Super has been now tuned to increased continuous power, made possible by computer engineering, optimal cylinder porting ensures a cleaner and better use of the fuel/air mixture. More power and fuel efficiency will be achieved due to the increased mixture in the combustion chamber

and at the same time the cylinder of the 120 Super keeps cooler.

□ The air filter is a box-type design, the top portion of which is bevelled at the side and therefore automatically shakes off shavings. The well sealed connection between the air filter and the suction elbow, in front of the carburettor, guarantees a reliable seal against dirt.

□ The intake noise damping has been improved. The intake noise has been dampened

by means of a resonance chamber in connection with a suitably fitting nozzle shaped intake pipe. Due to this the 120 Super has a comparatively low noise level.

□ Easy starting is guaranteed when the engine is cold or warm, by an additional starting appliance. This is operated by gently touching a small pump button and in turn a small quantity of fuel is injected into the suction muff of the carburettor. This is an established effective method which has been used on many types of motor appliances for a long time.

□ The tank is made of a new improved glass fibre reinforced chemical material. This high-grade plastic withstands ultra-violet rays and does not fade, it is really tough even at extreme

Specifications

Design: Compact, robust styling for modern working techniques. Simple to service. All the important parts are easily accessible.
