Safety Management Course At Vaal University Of Technology:

Tourism Safety, Security and Resilience Rami K. Isaac, Shem Wambugu Maingi, Vanessa GB Gowresunkaar, 2024-11-18

This significant volume critically explores the implications of tourism safety and security and how communities in tourism destinations try to be resilient in the face of these impacts. Written by leading scholars, this book offers new insight into the conceptual and practical knowledge of community resilience due to tourism security and safety issues. Chapters examine these topics through an integrated community perspective to provide comprehensive consideration of the interconnected facets of a community encompassing social, economic, environmental, and cultural dimensions when evaluating and addressing matters pertaining to tourism management, safety, security, and resilience. This book is structured around different conceptual, theoretical, and practical strategies employed by destinations to foster and sustain community resilience, particularly during periods of crises as well as communities in the context of tourism recovery. It examines this across geographical borders and in many different contexts, not just locations of tourism or types of tourism such as religious tourism and different types of crises including natural disasters, pandemics, and terrorism. This book is an essential reading for all tourism students, researchers, and academics as well as for those interested in conflict and crises recovery.

Information Resources in

Toxicology P.J. Bert Hakkinen, Asish Mohapatra, Steven G. G. Gilbert, 2009-08-19. This latest version of *Information Resources in Toxicology* (IRT) continues a tradition established in 1982 with the publication of the first edition, presenting an extensive itemization, review, and commentary on the information infrastructure of the field. This book is a unique, wide-ranging international annotated bibliography and compendium of major resources in toxicology and allied fields such as environmental and occupational health, chemical safety, and risk assessment. Thoroughly updated, the current edition analyzes technological changes and is rife with online tools and links to Web sites. IRT IV is highly structured, providing easy access to its information. Among the hot topics covered are Disaster Preparedness and Management, Nanotechnology, Omics, the Precautionary Principle, Risk Assessment, and Biological Chemical and Radioactive Terrorism. Warfare is among the designated international in scope, with contributions from over 30 countries. Numerous key references and relevant Web links. Concise narratives about toxicologic sub-disciplines. Valuable appendices such as the IUPAC Glossary of Terms in Toxicology. Authored by experts in their respective sub-disciplines within toxicology.
