Palisano, Suzann K. Campbell, Margo Orlin, 2014-04-25. Used as both a core textbook in PT programs and as a clinical reference. *Physical Therapy for Children*, 4th Edition, provides the essential information needed by PTs, both student and professional, when working with children. Like the previous bestselling editions, the 4th edition follows the practice pattern categories of the Guide to Physical Therapist Practice and uses the ICF model of the disabling process as it presents up-to-date evidence-based coverage of treatment. In this latest edition, Suzann Campbell, DeLapp, Robert J. Palisano, and Margo N. Orlin have added more case studies and video clips, additional chapters, and Medline-linked references online. Evidence to Practice boxes make it easy to find and remember important information. Provides comprehensive foundational knowledge in decision making, screening, development, motor control, and motor learning; the impairments of body function and structure; and the PT management of pediatric disorders.
