**Inequality in School Discipline** Russell J. Skiba,Kavitha Mediratta,M. Karega Rausch,2016-08-20 This edited volume

fills a critical void by providing the most current and authoritative information on what is known about disciplinary disparities. School exclusion, out of school suspension and expulsion in particular, remains a substantial component of discipline in our nation's schools, and those consequences continue to fall disproportionately on certain groups of learners. The negative consequences of frequent and inequitable use of school exclusion are substantial, including higher rates of academic failure, dropout, and contact with the juvenile justice system. As educators, policymakers, community leaders, and other youth-serving organizations begin the difficult work of creating more equitable school disciplinary systems, the need for effective disparity-reducing alternatives could not be more important. Drawing on the multi-year ground-breaking work of the Discipline Disparities Collaborative, the chapters in this book provide cutting-edge knowledge supporting a new national imperative to eliminate race, gender, disability, and sexual orientation-based disciplinary disparities. Annual Report of the State Board of Education Rhode Island. Board of Education, 1902. Annual Report of the State Board of Education Rhode Island. State Board of Education, 1902. **How Girls Achieve** Sally A. Nuamah, 2019-04-22. Winner of the Jackie Kirk Award. Winner of the AESA Critics Choice Award. Blazes new trails in the study of the lives of girls, challenging all of us who care about justice and gender equity, not only to create just and inclusive educational institutions but to be unapologetically feminist in doing so. Seamlessly merging research with the stories and voices of girls and those who educate them, this book reminds us that we should do better and inspires the belief that we can. It is the blueprint we've been waiting for. Brittney C. Cooper, author of *Eloquent Rage*. Nuamah makes a compelling and convincing case for the development of the type of school that can not only teach girls but also transform them. An essential read for all educators, policymakers, and parents invested in a better future. Joyce Banda, former President of the Republic of Malawi. This bold and necessary book points out a simple and overlooked truth: most schools never had girls in mind to begin with. That is why the world needs what Sally Nuamah calls feminist schools, deliberately designed to provide girls with achievement-oriented identities. And she shows how these schools would help all students, regardless of their gender. Educated women raise healthier families, build stronger communities, and generate economic opportunities for themselves and their children. Yet millions of disadvantaged girls never make it to school, and too many others drop out or fail. Upending decades of advice and billions of dollars in aid, Nuamah argues that this happens because so many challenges girls confront, from sexual abuse to unequal access to materials and opportunities, go unaddressed. But it isn't enough just to go to school. What you learn there has to prepare you for the world where you'll put that knowledge to work. A compelling and inspiring scholar who has founded a nonprofit to test her ideas, Nuamah reveals that developing resilience is not a gender-neutral undertaking. Preaching grit doesn't help girls; it actively harms them. Drawing on her deep immersion in classrooms in the United States, Ghana, and South Africa, Nuamah calls for a new approach: creating feminist schools that will actively teach girls how and when to challenge society's norms and allow them to carve out their own paths to success. *The Grammar of School Discipline* Hannah Carson Baggett, Carey E. Andrzejewski, 2021-05-18

The Grammar of School Discipline examines how seemingly discrete school discipline policies and practices constitute a particular grammar Removal Resistance and Reform Weaving numeric data with portraits of students and school practitioners the authors detail a nuanced landscape of school discipline in Alabama and its anti Black foundations The removal of Black students can be traced to the antebellum construction of Blackness as criminal deviant and deserving of punishment A focus on resistance centers the agency that students and practitioners exercise despite anti Black removal An exploration of specific reform efforts emphasizes that even the most well intentioned and well organized reforms are limited when the removal of students remains an option for practitioners The authors end with an appeal to educational stakeholders to repair the harms that these anti Black policies and practices inflict on students and communities and thus move towards repairing the damage that white supremacy inflicts on everyone's humanity
