## FLASHCARDS

Questions on one side, answer on the other OR Term on one side, definition on the other. Ask yourself the questions & then check your answers.

## TALK-THROUGH

Go through your flashcards & explain each aspect in as much detail as possible without reading from the printed information. Try with a partner or in a group!

## MNEMONIC DEVICES

Try rhyming or creating sayings to help you remember information. You can also write acronyms or sentences with the first letters of words.

## PRETEND TO TEACH SOMEONE

After studying a chapter/topic for some time, record yourself explaining it as if to a person whose never heard it. One, it will help you learn the material better, and two you now have a recording you could listen to!

## STUDY GUIDE

Use your class study guide as a tool for review. If your teacher does not provide a study guide, create one! Create questions/practice problems/short answer questions related to the content you learned throughout the semester.

## CONDENSING NOTES

Summarize a chapter/topic/lesson within a limited space (ie: a flashcard, full page). Fill it with notes, drawings, examples, etc. This will challenge you to write what's important instead of mindlessly writing everything down.
