In this activity, you will investigate the inner layers of the Earth as well as its discontinuities, and make a three-dimensional model of them.

Activity #1: Our Dynamic Earth

Describe the properties of the layers of the Earth using the information you've done in the previous activity. Tell the composition of the layers of the Earth.

Guide Questions:

2. What elements make up the most of the mantle?
3. What is the special feature of the upper mantle?
4. How did scientists come to know that the outer core is liquid? Provide evidences to your answer.
5. What materials make up the inner core?
