China's Uneven and Combined Development Steven Rolf,2020-10-15 This book mobilises the theory of uneven and combined development to uncover the geopolitical economic drivers of China s rise The purpose is to explain the formation and trajectory of its economic accumulation system which remains a confounding hybrid of statist and neoliberal forms of capitalism as the outcome of China s geopolitical engagement of the USA during the late stages of the Cold War and its participation in manufacturing global production networks GPNs Fear of geopolitical catastrophe drove China to open its economy while GPNs enabled China to generate substantial export surpluses which could be recycled through state owned banks as cheap credit and subsidies to large vertically integrated and politically controlled state owned enterprises In this way a synergy emerged between the neoliberal and Keynesian Fordist sectors of the economy while the national territorial state retained its form and expanded its functions The book chronicles how this reliance on export surpluses however rendered China extremely vulnerable to external shocks prompting a dramatic monetary and fiscal stimulus response to the crisis of 2008 even while sustaining the illusion of economic decoupling from the global economy Finally it examines the growing role of the state in the current crisis ridden economic model as well as China s current geoeconomic and geopolitical expansionism in areas such as the Belt and Road Initiative and the militarisation of the East and South China Seas

Cities and Local Governments in Central Asia Madina Junussova,2020-02-28 This book

presents the changing roles of urban governments and how local governments struggle to gain administrative fiscal and political power to combat current urban challenges in Kazakhstan Focusing on the cities and regions selected by the national government of Kazakhstan to be the drivers of national economic development the author analyses the impact of decentralization on the role of local governments The book examines the practical experiences of city and regional governments with an emphasis on urban planning public investment in national projects and management of urban transport Due to the complexity and irregular distribution of political reforms at different levels of local government in Kazakhstan three separate studies are presented each looking at a specific aspect of decentralization reform and local government function related to physical urban development and distribution of public investment The author argues that if the national government of Kazakhstan wants to concentrate economic resources in urban agglomerations it is not enough to assume that local governments are ready to play the role of efficient planners and managers of urban development A useful analysis illustrating cities and urban conglomerations as engines of growth in economic development this book will be of interest to academics studying Central Asian Studies in particular political and economic development Development Studies and Urban Studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Dark Side of Globalisation Leila Simona Talani, Roberto Roccu, 2019-03-28 Firmly rooted in the International Political Economy IPE tradition this book addresses the negative consequences of globalisation what is termed here the dark side of globalisation It explores different definitions of globalisation whether the globalisation we have seen since the 1970s is substantially new and to what extent it can be governed Building on these foundations the work assesses the prospects for de globalisation By focusing on this dark side of globalisation the authors show how the global economic crisis and its various local and sectorial manifestations intensified rather than generated existing trends This scholarship provides an account of the current predicament that is both more complex and more persuasive than the opposition between globalisation and de globalisation

Identity, Policy, and Prosperity Jeongwon Bourdais Park, 2017-08-11 This book offers a rare glimpse into China's Korean minority which dominates the area bordering North Korea even as Korea is riven into capitalist and communist societies China's Koreans register this dilemma as one internal to the society they live in in China's postindustrial Northeast As this research makes clear once driven by state investment in industry the Northeast is now struggling to define its identity as a post industrial region the ethnic Koreans there even more so This monograph provides a distinctive look at a group shaped by political turmoil economic transformation and cultural struggle the study may offer an idea of what the future of the Korean peninsula itself might be disentangling the puzzling contradictions and synergies between nationality locality and development in China

Local and Regional Development Andy Pike, Andrés Rodríguez-Pose, John Tomaney, 2016-07-15 Actors and institutions in localities and regions across the world are seeking prosperity and well being amidst tumultuous

and disruptive shifts and transitions generated by an increasingly globalised knowledge intensive capitalism global financial instability volatility and crisis concerns about economic social and ecological sustainability climate change and resource shortages new multi actor and multi level systems of government and governance and a re ordering of the international political economy state austerity and retrenchment and new and reformed approaches to intervention policy and institutions for local and regional development Local and Regional Development provides an accessible critical and integrated examination of local and regional development theory institutions and policy in this changing context Amidst its rising importance the book addresses the fundamental issues of what kind of local and regional development and for whom its purposes principles and values frameworks of understanding approaches and interventions and integrated approaches to local and regional development throughout the world The approach provides a theoretically informed critical analysis of contemporary local and regional development in an international and multi disciplinary context grounded in concrete empirical analysis from experiences in the global North and South It concludes by identifying what might constitute holistic inclusive progressive and sustainable local and regional development and reflecting upon its limits and political renewal

The Routledge Handbook of Planning Megacities in the Global South Deden Rukmana, 2020-06-04 Cities are now home to 55% of the world's population and that number is rising Urban populations across the world will continue to grow including in megacities with populations over ten million In 2016 there were 31 megacities globally according to the United Nations World Cities Report with 24 of those cities located in the Global South That number is expected to rise to 41 by 2030 with all ten new megacities in the Global South where the processes of urbanization are intrinsically distinct from those in the Global North The Routledge Handbook of Planning Megacities in the Global South provides rigorous comparative analyses discussing the challenges processes best practices and initiatives of urbanization in Middle America South America the Middle East Africa South Asia East Asia and Southeast Asia This book is indispensable reading for students and scholars of urban planning and its significance as a resource will only continue to grow as urbanization reshapes the global population

Metropolitan Economic Development Alejandra Trejo Nieto, José L. Niño-Amézquita, 2019-08-28 Metropolitan areas are home to a significant proportion of the world's population and its economic output Taking Mexico as a case study and weaving in comparisons from Latin America and developed countries this book explores current trends and policy issues around urbanisation metropolisation economic development and city region governance Despite their fundamental economic relevance the analysis and monitoring of metropolitan economies in Mexico and other countries in the Global South under a comparative perspective are relatively scarce This volume contains empirical analysis based on comparative perspectives with relation to international experiences It will be of interest to advanced students researchers and policymakers in urban policy urban economics regional studies economic geography and Latin American studies *Survival Governance* Peter Drahos, 2021-01-29 To deal with the climate crisis we need a new paradigm of technological and social development aimed at

the restoration of ecological systems the bio digital energy paradigm How do we get to this paradigm The book draws on more than 250 interviews across 17 key countries to present a practical answer this question We need a strong state to lead There are four possible leaders the EU US China and India China is best placed to lead It is building experimental cities like eco cities and sponge cities out of which could grow the climate survival governance that the world badly needs **World Cities and Nation States** Greg Clark,Tim Moonen,2016-11-10 World Cities and Nation States takes a global perspective to show how national governments and states provinces regions continue to play a decisive and often positive partnership role with world cities The 16 chapter book comprised of two introductory chapters 12 central chapters that draw on case studies and two summary chapters draws on over 40 interviews with national ministers city government officials business leaders and expert academics **Estimating the Impacts of Urban Growth on Future Flood Risk** Willem Veerbeek,2017-12-01 The unprecedented growth of cities has a significant impact on future flood risk that might exceed the impacts of climate change in many metropolitan areas across the world Although the effects of urbanisation on flood risk are well understood assessments that include spatially explicit future growth projections are limited This comparative study provides insight in the long term development of future riverine and pluvial flood risk for 18 fast growing megacities The outcomes provide not only a baseline absent in current practise but also a strategic outlook that might better establish the role of urban planning in limiting future flood risk Capitalism and the Camera Kevin Coleman,Daniel James,2021-05-11 Photography was invented between the publication of Adam Smith s The Wealth of Nations and Karl Marx and Frederick Engels s The Communist Manifesto Taking the intertwined development of capitalism and the camera as their starting point the essays in Capitalism and the Camera investigate the relationship between capitalist accumulation and the photographic image and ask whether photography might allow us to refuse capitalism s violence and if so how Drawn together in productive disagreement the essays in this collection explore the relationship of photography to resource extraction and capital accumulation from 1492 to the postcolonial the camera s potential to make visible critical understandings of capitalist production and society especially economies of class and desire and propose ways that the camera and the image can be used to build cultural and political counterpublics from which a democratic struggle against capitalism might emerge With essays by Ariella Asha Azoulay Siobhan Angus Kajri Jain Walter Benn Michaels T J Clark John Paul Ricco Blake Stimson Chris Stolarski Tong Lam and Jacob Emery
