and its ambivalence about technology and the development it enables. It relies on various cultural conceptions of space among them the American Public Land Survey the source of the grid allotments shaping homestead claims Mexican era diseases and Native American traditions that defined a fluid relationship between human beings and the land. This animation of four California social novels of the late eighteenth and early nineteenth centuries demonstrates how conflicts over space and place signify cultural conflict. It is deeply informed by the author's understanding of historical land issues. The works include Joaquin Miller's *Unwritten History: Life Amongst the Modocs*, Helen Hunt Jackson's *Ramona*, Frank Norris' *The Octopus*, and Mary Austin's *The Ford*. Miller's *Unwritten History: Life Amongst the Modocs* and Jackson's *Ramona* examine the tragic but inevitable consequences for native people of making space inhabited already by Native American and Hispanic populations safe for Americans who pursue the agrarian dream without regard to its effects upon those who claim prior tenure on the land. Norris' *The Octopus* and Austin's *The Ford* examine the murkier story of trying to preserve or to reclaim the agrarian dream when confronted by the unchecked materialist interests of American capitalism. A wide-reaching interdisciplinary approach to various cultural conceptions of space, *The End of Eden* provides a crucial understanding of the conflicts depicted in social novels that lament the ways in which land is allocated and developed the ways in which American agrarianism and its promise of local sustainable land use is undermined and how it applies to contemporary California. In an era where California confronts yet again the complicated patterns of land use fracking water use and water rights coastal regulation and management and agribusiness this groundbreaking work provides an ever-relevant context.

La Purísima

Concepción Michael R. Hardwick, 2015-05-11. In two centuries La Purísima Concepción went from a fledgling frontier mission to a renowned California State Historic Park. Once home to many Spanish soldiers, settlers, and hundreds of Chumash Indians, La Purísima held the seat of the California Mission government under Father Mariano Payeras. It withstood catastrophic events including widespread disease in early years and a great Southern California earthquake in 1812. Emerging from ruins for the last time in 1934 after restoration by the Civilian Conservation Corps, structures appear today as they did in the early nineteenth century. The uniquely restored California Mission complex operates as a state park in a pastoral setting. Author and archivist Michael R. Hardwick chronicles the story of La Purísima and the resilient people and culture that made a lasting influence.

Sociologies of Religion, 2015-07-14. *Sociologies of Religion: National Traditions* presents fourteen histories of the sociological study of religion in a diverse set of nations.
