Mastery Keys: Unlocking the ACT WorkKeys Test - Applied Mathematics MasteryPrep,2015-02-18 Math Education for America? Mark Wolfmeyer,2013-12-04 Math Education for America analyzes math education policy through the social network of individuals and private and public organizations that influence it in the United States The effort to standardize a national mathematics curriculum for public schools in the U S culminated in 2010 when over 40 states adopted the Common Core State Standards for Mathematics Rather than looking at the text of specific policy documents this book complements existing critical reviews of the national math education curriculum by employing a unique social network analysis Breaking new ground in detailing and theorizing the politics of math education Wolfmeyer argues that the private interests of this network are closely tied to a web of interrelated developments human capital education policy debates over traditional and reform pedagogy the assumed content knowledge deficit of math teachers and the proliferation of profit driven educational businesses By establishing the interconnectedness of these interests with the national math education curriculum he shows how the purported goals of math education reform are aligned with the prevailing political agendas of this social network rather than the national interest

In the U S many employees who enter the workforce after graduating from high school do not possess the basic math skills required for employment and promotion Juniors in high school take ACT WorkKeys Applied Mathematics assessment to demonstrate their readiness for the workplace However the overall scores of this test do not indicate which specific math skills students are lacking This study had the purpose to analyze the math skills mastered by 58 junior students at St Anthony High School in Milwaukee using a practice test modelled after the ACT WorkKeys Applied Mathematics exam and to identify any gaps in the math skill levels assessed by this exam with the math curriculum taught at St Anthony High School utilizing curriculum mapping The curriculum mapping did not reveal gaps between the math skills taught and the math skills assessed by ACT WorkKeys Applied Mathematics exam but scores on the practice test showed that participating students lacked many of the basic math skills required for successful employment Study recommendations include addressing math curriculum areas that need to be taught differently to prepare students in skills they are lacking and actions to raise awareness about
