Quot Moo Quot Is Hard To Do:

Old Testament Quotations in the Fourth Gospel M. J. J. Menken, 1996 From the very beginning of Christianity Jesus followers have tried to legitimize their views of him with the help of the Scriptures This means that if we wish to understand the beginning of the Christian church and of Christian theology we have to examine the early Christian use of the Old Testament A conspicuous way of using the Scriptures consists in directly quoting from them Eleven OT quotations in the Fourth Gospel are the topic of this study These eleven quotations in fact the majority of John's OT quotations differ from the known versions of the OT but are not free paraphrases of the OT text in some cases it is not immediately clear from which passage precisely the evangelist quotes This state of affairs raises the questions which OT passages in which versions John used and how and why the quotations were modified In this study the questions of source and of redaction are dealt with in their interrelationship Can we adequately explain the form of a quotation by taking into account Johannine redaction of an OT passage in a textual form which we know which we can reasonably argue Results of research in the field of early Jewish and early Christian exegetical techniques and devices are of course taken into account Each of the eleven quotations is scrutinized on the points of source and redaction It appears that John mostly used the LXX but that where that translation did not suit his purposes he either translated the Hebrew himself or used an other translation He modified the quotations in agreement with extant exegetical rules and for christological reasons This study gives new insight into an aspect of the early Christian use of Scripture

The Hermeneutical Spiral Grant R. Osborne, 1991-01-01 Recipient of a Christianity Today 1993 Critics Choice Award In this comprehensive and up to date volume Grant R Osborne provides seminary students and working pastors with the full set of tools they need to move from sound exegesis to the development of biblical and systematic theologies and to the preparation of sound biblical sermons Osborne contends that hermeneutics is a spiral from text to context a movement between the horizon of the text and the horizon of the reader that spirals nearer and nearer toward the intended meaning of the text and its significance for today He develops his thesis in each of three sections the first covering general hermeneutics grammar semantics syntax backgrounds the second covering hermeneutics and genre and the third covering applied hermeneutics Along the way he offers assessments of recent developments from redaction criticism to reader response criticism In two appendixes he also addresses the contemporary philosophical challenges to fixed meanings in texts and discusses the implications of this debate for biblical authority Covering the wide spectrum from exegesis to sermon preparation Osborne s up to date and comprehensive text should prove to be the standard evangelical work in the field for years to come
