

TO KILL A MOCKINGBIRD REVIEW QUOTES

1. **Chapter 1:** “That was the summer that Dill came to us...” (Lee 1).
 - What role does Dill play in the story at this point? How does this serve as an important sentence in the overall structure of the novel? Why do we get a sense that he is going to become a major character?
2. **Chapter 1:** There are “other ways [besides chaining them to beds] of making people into ghosts” (Lee 14).
 - Who is the speaker? What does he mean by ghosts and what ways does he mean? What are three ways a person can be made into a ghost, besides chaining them to beds (or the obvious)?

Quotes In To Kill A Mockingbird Chapter 9:

Confessions of a Streetwalker David L. McKenna, 2016-05-10 In 2005 my wife Jan and I moved into a condo along the shores of Lake Washington Even though I had served as President of Seattle Pacific University back in the 1970s I was unknown on the streets of the resort like village of Kirkland Washington Each morning Molly our Maltese puppy and I went across the street for her potty break and exercise Soon with Molly as the introducer I discovered a new world where strangers became friends through the connection of our dogs Later after two back surgeries Jan joined us on our daily walk down the street through the village and around the park by using a doggie stroller as a substitute for a walker The sight of the three of us walking down the street with Molly peering forward from her seat at the helm of the stroller became a phenomenon of its own on the streets of Kirkland Together we walked through an open door of learning and found that friendship based upon listening caring and giving is a grace that God reserves for plain people who walk daily and serve joyfully in common places

2030 Mauro F. Guillén, 2025-09-23 AN INTERNATIONAL BESTSELLER Wall Street Journal Bestseller A Porchlight Book Bestseller Financial Times Best Books of 2020 Yahoo Finance Favorite Business Books of 2020 JP Morgan NextList 2021 selection Bold, provocative, illuminates why we're having fewer babies, the middle class is stagnating, unemployment is shifting, and new powers are rising. ADAM GRANT The world is changing drastically before our eyes; will you be prepared for what comes next? A groundbreaking analysis from one of the world's foremost experts on global trends, including analysis on how COVID-19 will amplify and accelerate each of these changes. Once upon a time, the world was neatly divided into prosperous and backward economies. Babies were plentiful, workers outnumbered retirees, and people aspiring towards the middle class yearned to own homes and cars. Companies didn't need to see any further than Europe and the United States to do well. Printed money was legal tender for all debts, public and private. We grew up learning how to play the game, and we expected the rules to remain the same as we took our first job, started a family, saw our children grow up, and went into retirement with our finances secure. That world and those rules are over. By 2030, a new reality will take hold, and before you know it, there will be more grandparents than grandchildren. The middle class in Asia and Sub-Saharan Africa will outnumber the US and Europe combined. The global economy will be driven by the non-Western consumer for the first time in modern history. There will be more global wealth owned by women than men. There will be more robots than workers. There will be more computers than human brains. There will be more currencies than countries. All these trends currently underway will converge in the year 2030 and change everything you know about culture, the economy, and the world. According to Mauro F. Guillén, the only way to truly understand the global transformations underway and their impacts is to think laterally. That is, using peripheral vision or approaching problems creatively and from unorthodox points of view. Rather than focusing on a single trend, climate change or the rise of illiberal regimes, for example, Guillén encourages us to consider the dynamic interplay between a range of forces that will converge on a single tipping point, 2030, that will be for better or worse. The point of no return. 2030 is both a remarkable guide to the coming changes and an exercise in the power of lateral thinking, thereby revolutionizing the way you think about cataclysmic change and its consequences.
