Event Studies Donald Getz, Stephen J. Page, 2019-10-30 Event Studies is the only book devoted to developing knowledge and theory about planned events. It focuses on event planning and management, outcomes, the experience of events, and the meanings attached to them, the dynamic processes shaping events, and why people attend them. This title draws from a large number of foundation disciplines and closely related professional fields to foster interdisciplinary theory focused on planned events. This revised edition has been updated to reflect and examine a number of substantial and important new ideas. New to the fourth edition: new sections on the evolution of design theory, management planning, and marketing theory applied to events; sensory stimulation; leadership and the nature of crises and security issues; new content on critical event studies and what this means for research and practice; the life cycle model for event programming; and an action plan for how events can be a positive force in sustainable cities. New and additional case studies from a wide range of international events and reviews of the evolving theory of contemporary research in events studies are included throughout. This will be an invaluable resource for all undergraduate students of events studies throughout their degree programmes.

The Doors You Can Open Rosalind Chow, 2025-04-08 Chow revolutionizes our understanding of how careers advance. Daniel H. Pink, 1 New York Times best selling author of *Drive*, taking readers on a transformative journey beyond the standard model of mentorship to embracing sponsorship. The way we currently network and engage in mentorship isn't working. Given the ever-evolving nature of the workplace, transactional networking and company-enforced mentorship programs simply don't help make our professional relationships more authentic or our workplaces more equitable. What we need instead is sponsorship. What's the difference between mentorship and sponsorship? Mentorship involves helping a mentee change their behavior, while sponsorship involves changing how other people see a protégé. Sponsorship is as important, if not more so, than mentorship in determining who gets ahead, making it a more effective way to promote social equality and inclusion in the workplace. In *The Doors You Can Open*, organizational expert Rosalind Chow shows readers that they likely already engage in sponsorship in their personal and professional networks and how they can channel those skills to build more authentic professional relationships. We all have more agency and deeper networks to act as sponsors than we might think, and sponsoring others can lead to mutually beneficial, lifelong connections rather than merely transactional interactions. Given the ever-evolving nature of the workplace, intentional and equitable sponsorship is more important now than ever for overturning traditional social hierarchies. Based on decades of original research, *The Doors You Can Open* makes a bold case for completely changing the way we network. Reading it will change how we see and use our relationships in the service of creating stronger workplaces for all.

Race, Representation, and Satire Christopher P. Campbell, 2023-12-06 *Race Representation and Satire* examines the role of humor, sarcasm, and parody in providing audiences with insight into race and racism in contemporary media through an analysis of representations of race and ethnicity in texts, online content, television shows, and comedy.

routines Contributors argue that while many minoritized groups continue to be targeted by stereotypes and myths that have lingered for centuries satire and comedy can be powerful tools for reversing harmful narratives and generating accurate authentic and inclusive representations Scholars of media studies popular culture rhetoric and race will find this book particularly useful
