research that focuses on observed parent child interactions in relation to regulatory problems We view regulatory problems as a transdiagnostic biopsychosocial concept covering excessive crying sleeping and or feeding and eating problems However studies with a focus on any of these problems are also encouraged Contact: Art and the Pull of Print Jennifer L. Roberts,2024-05-14 A leading art historian presents a new grammar for understanding the meaning and significance of print In process and technique printmaking is an art of physical contact From woodcut and engraving to lithography and screenprinting every print is the record of a contact event the transfer of an image between surfaces under pressure followed by release Contact reveals how the physical properties of print have their own poetics and politics and provides a new framework for understanding the intelligence and continuing relevance of printmaking today Focusing on the material and spatial transformations of the printmaking process rather than its reproducibility this beautifully illustrated book explores the connections between print painting and sculpture but also between the fine arts industrial arts decorative arts and domestic arts Throughout Roberts asks what artists are learning from print and what we in turn can learn from them Cruising World ,1999-01 Cruising World ,1998-01 **Cruising World** ,1992-01 **Cruising World** ,1999-01 **Cruising World** ,1995-01
