**Diversifying Greek Tragedy on the Contemporary US Stage** Melinda Powers, 2018-07-26 In its long history of performance and reception Greek drama has been interpreted and adapted in countless ways and forms in response to and as a reflection of the preoccupations and tensions of particular historical moments This volume continues this tradition by investigating a cross section of theatrical productions on the contemporary American stage that have reimagined Greek tragedy in order to address the political and social concerns of minority communities Studying performance and its role in creating and reflecting social cultural and historical identity in contemporary America it draws on cutting edge research in the field to move discussion away from the interpretation of dramatic texts in isolation from their performance context and towards an analysis of the dynamic experience of live theatre The discussion focuses particularly on the ability of engaged performances to pose critical challenges to the long standing stereotypes that have contributed to the misrepresentation and marginalization of minority cultures However in the process it also uncovers the ways in which such performances can inadvertently reinforce the very stereotypes they aim to execute demonstrating that ancient drama can be a powerful and dangerous tool in the search for social justice

Imagining Disarmament, Enchanting International Relations Matthew Breay Bolton, 2019-06-25. This book explores the global politics of disarmament through emerging international relations (IR) theories of discourse and imagination. Each chapter reflects on an aspect of contemporary activism on weapons through an analogous story from literary tradition. Shahrazade, convenor of the 1001 Nights, offers a potent metaphor for the humanitarian advocacy seeking to moderate the behaviour of violent people. The author reads Don Quixote in Cambodia's minefields, reflects on Lysistrata at Greenham Common and considers how tropes in *The Tempest* were enrolled in both Pacific nuclear testing and efforts to resist it. The book draws on ethnographic fieldwork in communities affected by weapons and disarmament advocacy at the UN and calls for a re-enchantment of IR alive to affect ritual and myth.
