According to FMCSA regulations, which of the following must the medical examiner evaluate when examining a driver's eyes?

- A. Pupil reactivity
 - B. Iris symmetry
 - C. Conjunctival injection
 - D. Corneal thickness - Correct Response:
- A. Pupil reactivity

Incorrect Responses:

B. Iris symmetry

This is incorrect because determining iris symmetry is not required by FMCSA.

C. Conjunctival injection

This is incorrect because most causes of conjunctival injection would not be disqualifying. Causes that are suspicious for a disqualifying condition need additional evaluation. While this abnormal finding should be explained, with determination of possible effects on safe driving before making a certification decision, it is not a condition that is specified in FMCSA regulations.

D. Corneal thickness

This is incorrect because it is not measured in an office examination except by an eye specialist.

According to FMCSA regulations, medical qualification for two years can be given to a driver who has... ?

- A. An SPE certificate for a left below the knee amputation (BKA).
- B. Hypertension.
- C. A recent diagnosis of Lewy body dementia.
- D. Documented medical marijuana use for pain control. - Correct Response:

A. An SPE certificate for a left below the knee amputation. This is the correct response because in order to obtain the SPE certificate, the driver had to demonstrate the ability to perform all tasks for the commercial driver job description.

Incorrect Responses:

B. Hypertension.

This is not the correct response because drivers with hypertension are only given a medical certificate that is good for one year.

C. A recent diagnosis of Lewy body dementia.

This is not the correct response because this is a progressive, degenerative condition with no known treatment. The effects of Lewy body dementia impact the ability to operate a CMV safely.

D. Documented medical marijuana use for pain control.

This is not the correct response because marijuana remains a drug listed in Schedule I of the Controlled Substances Act. It remains unacceptable for any safety-sensitive
