McCort,2016-04-28 Contributions by Rebecca A Brown Justine Gieni Holly Harper Emily L Hiltz A Robin Hoffman Kirsten Kowalewski Peter C Kunze Jorie Lagerwey Nick Levey Jessica R McCort and Janani Subramanian Dark novels shows and films targeted toward children and young adults are proliferating wildly It is even more crucial now to understand the methods by which such texts have traditionally operated and how those methods have been challenged abandoned and appropriated Reading in the Dark fills a gap in criticism devoted to children s popular culture by concentrating on horror an often neglected genre These scholars explore the intersection between horror popular culture and children s cultural productions including picture books fairy tales young adult literature television and monster movies Reading in the Dark looks at horror texts for children with deserved respect weighing the multitude of benefits they can provide for young readers and viewers Refusing to write off the horror genre as campy trite or deforming these essays instead recognize many of the texts and films categorized as scary as among those most widely consumed by children and young adults In addition

scholars consider how adult horror has been domesticated by children's literature and culture with authors and screenwriters turning that which was once horrifying into safe funny and delightful books and films. Scholars likewise examine the impetus behind such re-envisioning of the adult horror novel or film as something appropriate for the young. The collection investigates both the constructive and the troublesome aspects of scary books, movies, and television shows targeted toward children and young adults. It considers the complex mechanisms by which these texts communicate overt messages and hidden agendas and it treats as well the readers' experiences of such mechanisms.

The Joy of Children's Literature Denise Johnson, 2023-12-18 This book provides in-depth coverage of children's literature with integrated reading methods in a concise accessible format. Johnson emphasizes that reading, writing, discussing, and finding pleasure in children's books are essential tools in being able to recognize and recommend literature and being able to share the joy of children's literature with children themselves. This fully updated third edition includes up-to-date research, new book titles within each chapter, a greater focus on diversity and inclusion, and new sections on Activities for Professional Development and Print and Online Resources.

Once Upon a Time in a Dark and Scary Book K. Shryock Hood, 2018-05-25 Contemporary American horror literature for children and young adults has two bold messages for readers: adults are untrustworthy, unreliable, and often dangerous, and the monster always wins, as it must if there is to be a sequel. Examining the young adult horror series and the religious horror series for children, *Left Behind: The Kids* for the first time, and tracing the unstoppable monster to Seuss's *Cat in the Hat*, this book sheds new light on the problematic message produced by the combination of marketing and books for contemporary American young readers.

Lists of Note, 2015-06-16 *Lists of Note* curates 125 unputdownable entries from a list of names that are as eclectic and intriguing as its contents, which include myriad reasons given by ancient Egyptians for missing work, Albert Einstein's demands of his estranged wife, F. Scott Fitzgerald's extensive conjugation of "to cocktail," and many more. Rarely intended for the public eye, these lists reveal hopes, priorities, and musings in a most engaging and entertaining way. Each transcript is accompanied by an artwork, most a captivating facsimile of the list itself. Richly visual and irresistibly readable, *Lists of Note* is a testament to the human urge to bring order to, poke fun at, and find meaning in the world around us, and is a gift of endless enjoyment and lasting value.
