Race and Meaning Gary R. Kremer, 2014-12-21 No one has written more about the African American experience in Missouri over the past four decades than Gary Kremer and now for the first time fourteen of his best articles on the subject are available in one place with the publication of *Race and Meaning The African American Experience in Missouri* By placing the articles in chronological order of historical events rather than by publication date Kremer combines them into one detailed account that addresses issues such as the transition from slavery to freedom for African Americans in Missouri all black rural communities and the lives of African Americans seeking new opportunities in Missouri s cities In addition to his previously published articles Kremer includes a personal introduction revealing how he first became interested in researching African American history and how his education at Lincoln University and specifically the influence of his mentor Lorenzo Greene helped him to realize his eventual career path *Race and Meaning* makes a collection of largely unheard stories spanning much of Missouri history accessible for the first time in one place allowing each article to be read in the context of the others and creating a whole that is much greater than the sum of its parts Whether you are a student researcher or general reader this book will be essential to anyone with an interest in Missouri history

*Black Lives and Spatial Matters* Jodi Rios, 2020-08-15 *Black Lives and Spatial Matters* is a call to reconsider the epistemic violence that is committed when scholars policymakers and the general public continue to frame Black precarity as just another racial cultural or ethnic conflict that can be solved solely through legal political or economic means Jodi Rios argues that the historical and material production of blackness as risk is foundational to the historical and material construction of our society and certainly foundational to the construction and experience of

metropolitan space She also considers how an ethics of lived blackness living fully and visibly in the face of forces intended to dehumanize and erase can create a powerful counter point to blackness as risk Using a transdisciplinary methodology Black Lives and Spatial Matters studies cultural institutional and spatial politics of race in North St Louis County Missouri as a set of practices that are intimately connected to each other and to global histories of race and race making As such the book adds important insight into the racialization of metropolitan space and people in the United States The arguments presented in this book draw from fifteen years of engaged research in North St Louis County and rely on multiple disciplinary perspectives and local knowledge in order to study relationships between interconnected practices and phenomena

**The Missouri Home Guard** Petra DeWitt, 2022-12-26 Missouri was one of many states that established a defense organization to take over the duties of the National Guard that had been federalized for military service when the United States declared war on Germany in 1917 The tasks of this volunteer Home Guard included traditional National Guard responsibilities such as providing introductory military training for draftable men protecting crucial infrastructure from potential enemy activities and maintaining law and order during labor activism The Home Guard also functioned to preserve patriotism and reduce opposition to the war Service in the Guard was a way to show loyalty to one's country particularly for German Americans who were frequently under suspicion as untrustworthy Many German Americans in Missouri enthusiastically signed up to dispel any whispers of treason while others found themselves torn between the motherland and their new homeland Men too old or exempt from the draft for other reasons found meaning in helping with the war effort through the Home Guard while also garnering respect from the community For similar reasons women attempted to join the organization as did African Americans some of whom formed units of a Negro Home Guard Informed by the dynamics of race gender and ethnicity DeWitt's consideration of this understudied but important organization examines the fluctuating definition of patriotism and the very real question of who did and who did not have the privilege of citizenship and acceptance in society

Gateway to Equality Keona K. Ervin, 2017-07-28 Like most of the nation during the 1930s St Louis Missouri was caught in the stifling grip of the Great Depression For the next thirty years the Gateway City continued to experience significant urban decline as its population swelled and the area s industries stagnated Over these decades many African American citizens in the region found themselves struggling financially and fighting for access to profitable jobs and suitable working conditions To combat ingrained racism crippling levels of poverty and sub standard living conditions black women worked together to form a community based culture of resistance fighting for employment a living wage dignity representation and political leadership Gateway to Equality investigates black working class women s struggle for economic justice from the rise of New Deal liberalism in the 1930s to the social upheavals of the 1960s Author Keona K Ervin explains that the conditions in twentieth century St Louis were uniquely conducive to the rise of this movement since the city s economy was based on light industries that employed women such as textiles and food processing As part of the Great Migration black women migrated to the city at a higher rate than their male counterparts and labor and black freedom movements relied less on a charismatic male leadership model This made it possible for women to emerge as visible and influential leaders in both formal and informal capacities In this impressive study Ervin presents a stunning account of the ways in which black working class women creatively fused racial and economic justice By illustrating that their politics played an important role in defining urban political agendas her work sheds light on an unexplored aspect of community activism and illuminates the complexities of the overlapping civil rights and labor movements during the first half of the twentieth century **Missouri Historical Review**, 2016
