Racism a Very Short Introduction ,2015 **Muslim Perspectives on Islamophobia** Zouhir Gabsi, 2024-08-06 The Islamic positioning of Islamophobia is presented in this book Through Islamic or Muslim perspectives the book engages with various Islamic texts and discourses spoken and written emanating from preachers and scholars of Islam to discuss the points of convergence and divergence with the Western interpretation of the phenomenon The book aims to look at Islamophobia from a hitherto unexplored angle by first analyzing the points of convergence and divergence between the internal Muslim and external Western perspectives and then by providing new approaches to curbing Islamophobia through a holistic spiritual dimension of Islam and cultural memory The book contends that the bridges of understanding between the East and the West can only be built if some of Islam s theological concepts such as the place of reason in Islam are reinterpreted by considering the Islamic perspectives While the book acknowledges previous work on Islamophobia it contributes to a deeper understanding of Islamophobia in its internal and external manifestations by considering the theoretical frameworks of racism and xenophobia Readers interested in Islamic studies and anti racism narratives would find

this book's eclectic approach and balanced perspective of the phenomenon informative and enlightening *Opera, Emotion, and the Antipodes Volume I* Jane Davidson, Michael Halliwell, Stephanie Rocke, 2020-12-29 There can be little doubt that opera and emotion are inextricably linked From dramatic plots driven by energetic producers and directors to the conflicts and triumphs experienced by all associated with opera's staging to the reactions and critiques of audience members emotion is omnipresent in opera Yet few contemplate the impact that the customary cultural practices of specific times and places have upon opera's ability to move emotions Taking Australia as a case study this two volume collection of extended essays demonstrates that emotional experiences discourses displays and expressions do not share universal significance but are at least partly produced defined and regulated by culture Spanning approximately 170 years of opera production in Australia the authors show how the emotions associated with the specific cultural context of a nation steeped in egalitarian aspirations and marked by increasing levels of multiculturalism have adjusted to changing cultural and social contexts across time Volume I adopts an historical predominantly nineteenth century perspective while Volume II applies historical musicological and ethnological approaches to discuss subsequent Australian operas and opera productions through to the twenty first century With final chapters pulling threads from the two volumes together *Opera Emotion and the Antipodes* establishes a model for constructing emotion history from multiple disciplinary perspectives **Multiculturalism: A Very Short**

Introduction Ali Rattansi, 2011-09-22 Has multiculturalism failed Is it time to move on What is the alternative Ali Rattansi explores the issues from national identity and social cohesion to cultural fragmentation and political correctness Providing a balanced assessment of the truth and falsity of the charges against multiculturalism he explores new ideas for the future

Wilson, 2023-05-12 This book discusses ethical behavior through the genocidal stages of the Holocaust Paul E Wilson first looks at the antisemitism in Germany and Europe beginning in the decades preceding the Nazis reign of terror and goes on to discuss the ethical decisions made in the initial stages that moved society toward genocide The author maintains that the stages of genocide represent subtle changes that can be happening within a society in response to the moral choices made by actors By giving attention to the stages of genocide in the Holocaust this book contributes to the overall understanding of how the Holocaust was possible and encourages the moral community to join the watch for the development of genocide in the modern world **The Failures of Ethics** John K. Ethics concentrates on the multiple shortfalls and shortcomings of thought decision and action that tempt and incite us human beings to inflict incalculable harm Absent the overriding of moral sensibilities if not the collapse or collaboration of ethical traditions the Holocaust genocide and other mass atrocities could not have happened Our senses of moral and religious authority have been fragmented and weakened by the accumulated ruins of history and the depersonalized advances of civilization that have taken us from a bloody twentieth century into an immensely problematic twenty first Salvaging the fragmented condition of ethics this book shows how respect and honor for those who save lives and resist atrocity deepened attention to the dead and to death itself and appeals for human rights and renewed spiritual sensitivity confirm that ethics contains and remains an irreplaceable safeguard against its own failures What We Now Know About Race and Ethnicity Michael Banton, 2015-10-01 Attempts of nineteenth century writers to establish race as a biological concept failed after Charles Darwin opened the door to a new world of knowledge Yet this word already had a place in the organization of everyday life and in ordinary English language usage This book explains how the idea of race became so important in the USA generating conceptual confusion that can now be clarified Developing an international approach it reviews references to race racism and ethnicity in sociology anthropology philosophy and comparative politics and identifies promising lines of research that may make it possible to supersede misleading notions of race in the social sciences
