Note: The control is not designed for use with multi-line phones.

READ THIS BEFORE INSTALLATION

We have designed this control to conform to federal regulations and you can connect it to most telephone lines. However, each device that you connect to the phone line draws power from the phone line. We refer to this power draw as the device's *ringer equivalence number*, or REN. The REN is on the bottom of your control.

If you are using more than one device on the line, add up all the RENs. If the total is more than five, your phone might not ring. In rural areas, a total REN of three might impair ringer operation. If ringer operation is impaired, disconnect one of the devices from the line.
