

Diagnosis Coding Guidelines For Radiology Billing

Documentation for Diagnosis Code

At first glance it may appear that diagnosis coding for diagnostic radiology exams is straightforward, it actually can be quite challenging. In many cases, the documentation that must be reviewed prior to assigning a diagnosis code may be unavailable, unclear, or contradictory. There are two key documents for review. Although each is a viable source document for selecting a diagnosis code for the encounter, utilizing only one of these two documents to select procedure and diagnosis codes can result in unnecessary coding compliance risks for any provider of services.

- Test order with accompanying signs/symptoms
- Radiology report containing the final written interpretation
