Failure to Disrupt Justin Reich,2020-09-15 A Science Reading List for Uncertain Times Selection A must read for anyone with even a passing interest in the present and future of higher education Tressie McMillan Cottom author of Lower Ed A must read for the education invested as well as the education interested Forbes Proponents of massive online learning have promised that technology will radically accelerate learning and democratize education Much publicized experiments often underwritten by Silicon Valley entrepreneurs have been launched at elite universities and elementary schools in the poorest neighborhoods But a decade after the year of the MOOC the promise of disruption seems premature In Failure to Disrupt Justin Reich takes us on a tour of MOOCs autograders intelligent tutors and other edtech platforms and delivers a sobering report card Institutions and investors favor programs that scale up quickly at the expense of true innovation Learning technologies even those that are free do little to combat the growing inequality in education Technology is a phenomenal tool in the right hands but no killer app will shortcut the hard road of institutional change I m not sure if Reich is as famous outside of learning science and online education circles as he is inside He should be Reading and talking about Failure to Disrupt should be a prerequisite for any big institutional learning technology initiatives coming out of COVID 19 Inside Higher Ed The desire to educate students well using online tools and platforms is more pressing than ever But as Justin Reich illustrates many recent technologies that were expected to radically

change schooling have instead been used in ways that perpetuate existing systems and their attendant inequalities Science

Challenge-Based Learning in the School Library Makerspace Colleen Graves,Aaron Graves,Diana L.

Rendina,2017-07-19 An invaluable how to text that details the workshop model addresses the design challenges and explains the best avenues for curriculum based learning in the school library makerspace A successful school makerspace needs an enthusiastic maker community school wide participation and staff support How do you build this type of learning at your school The innovative team behind Challenge Based Learning in the School Library Makerspace addresses common questions and concerns and describes step by step how to introduce challenge based learning into the school library makerspace Intended for librarians and school staff who have already started thinking in terms of makerspaces but need further help sustaining programming and want to know more about Makerspace 2 0 this helpful guide details the workshop model various real world design challenges and the process for implementing curriculum based learning in the school library makerspace Readers will be empowered to go beyond the initial implementation of a makerspace and to draw from an arsenal of proven methodologies for designing challenges for student learning Additionally the book enables the addition of curriculum connections to library programming shows how to connect your students to local experts and the global maker community and eases you into more productive collaboration with other librarians
