Urban Jungle Ben Wilson, 2023-12-12 In this exhilarating look at cities past and future Ben Wilson proposes that in our world of rising seas and threatening weather the natural world may prove the city's savior Illuminating Wilson leaves readers with hope about the future of efforts to preserve the ecosystems that surround us as well as a new perspective that looks beyond the concrete and asphalt when walking along a city's streets Associated Press Since the beginning of civilization humans have built cities to wall nature out then glorified it in beloved but quite artificial parks In Urban Jungle Ben Wilson the author of Metropolis a seven thousand year history of cities that the Wall Street Journal called a towering achievement looks to the fraught relationship between nature and the city for clues to how the planet can survive in an age of climate crisis Whether it was the market farmers of Paris Germans in medieval forest cities or the Aztecs in the floating city of Tenochtitlan pre modern humans had an essential bond with nature But when the day came that water was piped in and food flown from distant fields that relationship was lost Today urban areas are the fastest growing habitat on Earth and in Urban Jungle Ben Wilson finds that we are at last acknowledging that human engineering is not enough to protect us from extremes of weather He takes us to places where efforts to rewild the city are under way to Los Angeles where the city's concrete river will run blue again to New York City where a bleak landfill will be a vast grassland preserve The pinnacle of this strategy will be Amsterdam a city that is its own ecosystem that makes no waste and produces its own energy In many cities Wilson finds nature is already thriving Koalas are settling in Brisbane wild boar may raid your picnic in Berlin Green canopies wildflowers wildlife the things that will help cities survive he notes also make people happy Urban Jungle offers the pleasures of history how backyard gardens spread exotic species all over the world how war produces biodiversity alongside a fantastic vision of the lush green cities of our future Climate change Ben Wilson believes is only the latest chapter in the dramatic human story of
